

“A second runway at Gatwick is a disaster” say Greens

21 September 2025 / 21 September 2025 by [Green Party](#)

Responding to the [news](#) that Transport Secretary Heidi Alexander has approved plans for a second runway at London Gatwick Airport, Green Party Leader, Zack Polanski, said:

“Signing off on a second runway at Gatwick is a disaster. It ignores basic climate science and risks undermining efforts to tackle the climate crisis. Labour keeps wheeling out the same nonsense about growth, but at what cost? What this really means is more pollution, more noise for local communities, and no real economic benefit. Expanding Gatwick is a tired, 20th-century answer to a 21st-century crisis. Labour’s obsession with ‘growth at all costs’ is driving us deeper into a climate breakdown and social inequality crisis.”
