

Adequate public transport services for class resumption of Secondary Three to Five students tomorrow

The Transport Department (TD) said today (May 26) that in view of class resumption of Secondary Three to Five students tomorrow (May 27), major public transport operators will provide adequate public transport services to cater for transport demand.

Except for the continued suspension and service adjustment of some routes (e.g. those serving tourists, those connecting to land-based boundary control points and the airport, and those with low patronage during night time), all franchised bus companies will resume their bus services to the pre-COVID-19 levels from tomorrow to cater for the commuting needs of passengers.

The TD's Emergency Transport Co-ordination Centre will closely monitor the traffic situation and public transport services. It will also maintain close liaison with major public transport operators and relevant government departments and arrange public transport service enhancement when necessary.

Students and members of the public are advised to pay attention to the latest transport and traffic news on radio and television before leaving home and allow more travelling time.
