

# Agency worker traps hand in machine

A polythene film manufacturer was sentenced for safety breaches after a worker trapped his hand in machinery.

Huddersfield Magistrates' Court heard how the injured person broke the little finger on his right hand while operating machinery in March 2014 at Total Polyfilm Ltd.'s Brighthouse plant.

An investigation by the Health and Safety Executive (HSE) found the company failed to adequately manage the risk of workers being injured when operating machinery. Also it was found the workers failed to operate in the correct way of working when using this equipment.

Total Polyfilm Ltd of Walton Summit Estate, Bamber Bridge, Preston, Lancashire pleaded guilty to breaching Section 3 (1) of the Health and Safety at Work Act 1974 and have been fined £6,000 and ordered to pay costs of £697.

After the hearing HSE inspector Jacqueline Ferguson commented: "This incident could so easily have been avoided by simply carrying out correct control measures and safe working practices.

"Companies should be aware that HSE will not hesitate to take appropriate enforcement action against those that fall below the required standards."

## **Notes to Editors:**

1. The Health and Safety Executive (HSE) is Britain's national regulator for workplace health and safety. It aims to reduce work-related death, injury and ill health. It does so through research, information and advice, promoting training; new or revised regulations and codes of practice, and working with local authority partners by inspection, investigation and enforcement.
