

Auction of personalised vehicle registration marks this Sunday

The Transport Department (TD) today (January 24) reminded the public that the 131st auction of personalised vehicle registration marks (PVRMs) will be held this Sunday (January 27) at Meeting Room S221, L2, Hong Kong Convention and Exhibition Centre, Wan Chai.

A list of 225 approved PVRMs put up for auction can be downloaded from the department's website, www.td.gov.hk. The reserve price for all these marks is \$5,000. Applicants who have paid a deposit of \$5,000 are required to participate in the bidding (including the first bid at the reserve price). Otherwise, the PVRM concerned may be sold to another bidder at the reserve price.

Bidders are also reminded to bring the following documents with them for completion of registration and payment procedures immediately after the successful bidding:

- (i) The identity document of the successful bidder;
 - (ii) The identity document of the purchaser if it is different from the successful bidder;
 - (iii) A copy of the certificate of incorporation if the purchaser is a body corporate; and
 - (iv) A crossed cheque made payable to "The Government of the Hong Kong Special Administrative Region" or "The Government of the HKSAR". (For an auctioned mark paid for by cheque, the first three working days after the date of auction will be required for cheque clearance confirmation before processing of the application for mark assignment can be completed.)
- Successful bidders can also pay through the Easy Pay System (EPS). Payment by post-dated cheques, cash or other methods will not be accepted.

People who want to participate in the bidding at the auction should take note of the following important points:

- (i) The display of a PVRM on a motor vehicle should be in compliance with the requirements stipulated in Schedule 4 to the Road Traffic (Registration and Licensing of Vehicles) Regulations;
- (ii) Any change to the arrangement of letters, numerals and blank spaces of a PVRM, i.e. single and two rows as auctioned, will not be allowed;
- (iii) Purchasers must make payment of the purchase price through EPS or by crossed cheque and complete the Memorandum of Sale of PVRM immediately after the bidding for the PVRM concerned. Subsequent alteration of the particulars in the memorandum will not be permitted; and
- (iv) The purchaser shall, within 12 months after the date of auction, apply to the Commissioner for Transport for the PVRM to be assigned to a motor vehicle registered in the name of the purchaser. If the purchaser fails to assign the PVRM within 12 months, allocation of the PVRM will be cancelled

and arranged for re-allocation in accordance with the statutory provision without prior notice to the purchaser.

"Upon completion of the Memorandum of Sale of PVRM, the purchaser will be issued a receipt and a Certificate of Allocation of Personalised Registration Mark. The Certificate of Allocation will serve to prove the holdership of the PVRM. Potential buyers of vehicles bearing a PVRM should check the Certificate of Allocation with the sellers and pay attention to the details therein. For transfer of vehicle ownership, this certificate together with other required documents should be produced to the Transport Department for processing," the spokesman said.

For other auction details, please refer to the Guidance Notes – Auction of PVRM, which is available at the department's licensing offices or can be downloaded from its website, www.td.gov.hk.

[Speech by CS at Jumpstarter \(with photos/video\)](#)

Following is the speech by the Chief Secretary for Administration, Mr Matthew Cheung Kin-chung, at Jumpstarter held by Alibaba Hong Kong Entrepreneurs Fund today (January 24):

Joe (Executive Vice Chairman of Alibaba Group and Director of the Alibaba Hong Kong Entrepreneurs Fund, Mr Joe Tsai), Bernard (Convenor of the Non-official Members of the Executive Council and Director of the Alibaba Hong Kong Entrepreneurs Fund, Mr Bernard Chan), Diana (Chief Executive (Hong Kong) of HSBC, Ms Diana Cesar), Kenny (Executive Director and Chief Executive Officer of Hutchison Telecommunications Hong Kong Holdings, Mr Kenny Koo), Raymond (Executive Director and Chief Executive Officer of SUNeVision, Mr Raymond Tong), William (Group Managing Director of Kerry Logistics, Mr William Ma), Allan (Director of the Alibaba Hong Kong Entrepreneurs Fund, Dr Allan Zeman), distinguished guests, ladies and gentlemen,

Good morning. It gives me great pleasure to join you all at the Jumpstarter 2019. First and foremost, I would like to extend my warmest welcome to entrepreneurs and investors with us today, especially those coming from overseas. My special thanks also go to Alibaba Hong Kong Entrepreneurs Fund and the Chambers of Commerce for the successful launch of this prestigious platform for showcasing quality start-ups and providing high-impact networking opportunities.

Jumpstarter aims to build, empower and boost Hong Kong's start-up ecosystem and entrepreneurship by bringing entrepreneurs, corporates, investors and the public together, helping to transform Hong Kong into a

leading hub for global innovation and technology (I&T). This echoes well with the policy objective of the current-term Hong Kong Special Administrative Region (HKSAR) Government in developing an inspiring environment conducive to I&T, with a view to creating new industries and wealth, providing more employment for young people, promoting upward mobility and improving people's livelihood.

Capitalising on our advantages under "one country, two systems", strategic geographical location, established legal system, robust protection for intellectual property, highly efficient financial platforms and world-class universities, with four of our universities among the world's top 100, Hong Kong has gained a solid footing in driving I&T growth. Indeed, President Xi Jinping has openly indicated that Hong Kong has a solid science and technology foundation and a strong pool of quality technology talent, and pledged to support the development of Hong Kong into an international I&T hub.

Looking forward, the development of the Guangdong-Hong Kong-Macao Greater Bay Area and collaboration between Hong Kong and Shenzhen will connect the upstream, midstream and downstream sectors of innovation and technology industries, thereby developing an international I&T hub in the Greater Bay Area. The immense synergy effects so generated will provide powerful support for Hong Kong's I&T ecosystem to thrive.

To propel our I&T development forward, in the past three years alone, the HKSAR Government has committed over HK\$100 billion to boost research and development (R&D), develop state-of-the-art I&T infrastructure, nurture I&T talent pool, provide investment funding and support measures to improve the ecosystem for startups.

A vibrant startup environment plays a pivotal role in driving I&T development in Hong Kong. Hong Kong's start-up scene has experienced phenomenal growth in recent years. We are ranked among the top five fastest growing start-up ecosystems and one of the world's top 25 start-up hubs. According to the latest survey results, there were over 2 600 start-ups in Hong Kong in 2018, up by 18 per cent over 2017. The number of people employed by start-ups also skyrocketed to 9 548, an increase of 51 per cent over the previous year.

The HKSAR Government is determined to transform Hong Kong into a leading global hub for innovation and entrepreneurship where start-ups can use the city as a lab, a showcase and a global launch pad. We have introduced a series of measures to create a conducive ecosystem with state-of-the-art infrastructure and supporting facilities, heavy financial support and a full range of supporting services to nurture start-ups throughout their journey from conceptualisation to commercialisation, thereby enabling them to develop their ideas and create revolutionary new tech products and services.

Our two flagship I&T institutions, namely the Hong Kong Science and Technology Parks Corporation (the manager of the Hong Kong Science Park) and Cyberport, fuel the growth of I&T startups by connecting all elements of the

value chain, from innovative thinking, research and development and creative design to production.

The Science Park offers three incubation programmes targeted for start-ups in the fields of new technology, biomedical technology and web and mobile technology. The HKSAR Government further provided additional allocation of HK\$7 billion to the Science Park to launch the Enhanced Incubation Programmes last October to strengthen support for its tenants and incubatees.

As for Cyberport, it runs a number of programmes to boost the growth of start-ups in Hong Kong, including the Cyberport Creative Micro Fund, the Cyberport Incubation Programme and the Cyberport Macro Fund, among others. Recently, Cyberport has launched the Overseas/Mainland Market Development Support Scheme to provide financial support for Cyberport programme graduates to explore new opportunities in markets on the Mainland and places overseas.

To encourage venture capital investment in local I&T start-ups, we have introduced the HK\$2 billion Innovation and Technology Venture Fund to attract private venture capital funds to co-invest with the HKSAR Government in local I&T start-ups on an investment ratio of about 1:2. In just seven months since the launch of the Fund in last July, we have already partnered with six venture capital funds and started receiving their invitations.

On pooling of technology talent, we have allocated HK\$10 billion to support the establishment of two research clusters on healthcare technologies and on artificial intelligence and robotics technologies, to attract the world's top scientific research institutions and technology enterprises to Hong Kong for conducting more midstream and downstream R&D projects in collaboration with local universities and scientific research institutions. Such clusters will pool and nurture more technology talent in Hong Kong.

We have also launched the Technology Talent Admission Scheme last June to fast-track the admission of overseas and Mainland talent in specific technology areas to participate in R&D work in Hong Kong. Last August, we further rolled out the Technology Talent Scheme to help nurture more I&T talent in Hong Kong by heavily subsidising eligible organisations to recruit postdoctoral talent for R&D work and training their staff in advanced technologies

Ladies and gentlemen, the Government's investment promotion agency, Invest Hong Kong, has launched the StartmeupHK programme since 2013 to attract innovative and scalable entrepreneurs to Hong Kong and promote Hong Kong as a premier startup destination. It also provides a one-stop service platform to support start-ups and help build our ecosystem to transform Hong Kong into an attractive destination for entrepreneurs from around the world. The annual flagship event, the StartmeupHK Festival, attracted over 6 000 participants last year. This year, the Festival is also held this week, starting from this Monday (January 21) until 29 January 2019. Today's Jumpstarter event for sure is a highlight and icon of this "festive week".

However, Government's efforts alone are not enough. We need the support

of the industries and practitioners like Alibaba to join hands to help cultivate a fertile ground for start-ups in Hong Kong to "jump start" and stand amongst the world's best, I am most pleased to learn that Alibaba Hong Kong Entrepreneurs Fund is providing enormous support to start-ups through various schemes and incubation programmes.

On this note, I wish the Jumpstarter 2019 and StartmeupHK Festival a tremendous success and, for guests coming from abroad, a pleasant stay in Hong Kong. Thank you very much.

[LegCo Finance Committee meeting](#)

The following is issued on behalf of the Legislative Council Secretariat:

The meeting of the Legislative Council (LegCo) Finance Committee (FC) originally scheduled at 3pm tomorrow (January 25) in Conference Room 1 of the LegCo Complex will start at 3.15 pm (or an earlier time between 3pm and 3.15 pm). If the preceding House Committee meeting ends before 3pm, the FC meeting will start at 3pm.

[Opening arrangements for two heritage](#)

centres during Lunar New Year holidays

The Antiquities and Monuments Office today (January 24) announced the opening arrangements for the Hong Kong Heritage Discovery Centre (HKHDC) and the Ping Shan Tang Clan Gallery cum Heritage Trail Visitors Centre during the Lunar New Year holidays. Details are as follows:

February 4 (Lunar New Year's Eve)

The HKHDC will close at 5pm. The Ping Shan Tang Clan Gallery cum Heritage Trail Visitors Centre will be closed as it will be its regular closing day.

February 5 and 6 (the first two days of the Lunar New Year)

The two heritage centres will be closed.

February 7 (the third day of the Lunar New Year)

The two heritage centres will resume the following normal opening hours:

The HKHDC: 10am to 7pm

The Ping Shan Tang Clan Gallery cum Heritage Trail Visitors Centre: 10am to 5pm

The two heritage centres will open as usual from the fourth day of the Lunar New Year (February 8).

Key statistics on service demand of A&E Departments and occupancy rates of medical wards in public hospitals

The following is issued on behalf of the Hospital Authority:

During the winter surge, the Hospital Authority (HA) is closely monitoring the service demand of Accident and Emergency Departments and the occupancy rate of medical wards in public hospitals. Key service statistics are being issued daily for public information. Details are in the appended table.

In addition, the weekly bulletin "Surge in Brief" (appended) will be issued every Thursday to illustrate the trend of key service statistics in public hospitals in the past month. "Surge in Brief" can be accessed in the

HA Winter Surge designated webpage (www.ha.org.hk/goto/wintersurge/en).
