

## **SED visits Eastern District**

The Secretary for Education, Mr Kevin Yeung, today (September 6) visited Eastern District to learn more about secondary school students' campus life at the start of a new school year and young people participating in community activities. He also exchanged views with members of Eastern District Council (EDC).

Accompanied by the District Officer (Eastern), Mr Simon Chan, and the EDC Chairman, Mr Wong Kin-pan, Mr Yeung first called at CNEC Lau Wing Sang Secondary School in Chai Wan, where he was briefed by the school principal and teachers on the school development plan.

Next year will mark the school's 20th anniversary. Its work targets for the 2018/19 school year include creating a reading atmosphere for developing students' reading abilities and interest, enriching English learning and teaching, and helping students develop a sense of responsibility, resilience and leadership.

Mr Yeung toured the school's English café, reference library for teachers and school library for students to learn more about the teaching and learning arrangements. At the school activity centre he chatted with student leaders and activity ambassadors, and listened to their reflections on daily school life.

Mr Yeung also visited the Jockey Club Shaukiwan Youth S.P.O.T. of the Hong Kong Federation of Youth Groups. He toured different facilities and also took the opportunity to enjoy a musical instrument performance and art works presentation by youths, and listened to their views. Mr Yeung was pleased that the young people could connect with their peers, relax and develop their own interests in such a cozy place. He encouraged them to continue to explore their potential, equip themselves well and realise their dreams in the future.

Mr Yeung then went to the EDC to exchange views with EDC members on education and other district issues.

## **Man convicted of possession of illicit cigarettes**

A 48-year-old man was convicted and sentenced to three months' imprisonment at Fanling Magistrates' Courts today (September 6) for possession of illicit cigarettes, in contravention of the Dutiable

Commodities Ordinance.

Customs officers intercepted an incoming male passenger at Lo Wu Control Point yesterday (September 5) and seized 16 400 illicit cigarettes with an estimated market value of about \$44,000 and a duty potential of about \$31,000 from a suitcase he was carrying.

Under the Dutiable Commodities Ordinance, anyone involved in dealing with, possession of, selling or buying illicit cigarettes commits an offence. The maximum penalty upon conviction is a fine of \$1 million and imprisonment for two years.

Members of the public may report any suspected illicit cigarette activities to the Customs 24-hour hotline 2545 6182 or its dedicated crime-reporting email account ([crimereport@customs.gov.hk](mailto:crimereport@customs.gov.hk)).

## Statistics on vessels, port cargo and containers for second quarter of 2018

The Census and Statistics Department (C&SD) today (September 6) released the statistics on vessels, port cargo and containers for the second quarter of 2018.

In the second quarter of 2018, total port cargo throughput decreased by 5.2% compared with a year earlier to 66.1 million tonnes. Within this total, inward port cargo and outward port cargo decreased by 5.1% and 5.3% compared with a year earlier to 41.6 million tonnes and 24.5 million tonnes respectively.

For the first half of 2018, total port cargo throughput decreased by 3.0% compared with a year earlier to 131.8 million tonnes. Within this total, inward port cargo and outward port cargo decreased by 1.9% and 4.8% compared with a year earlier to 82.2 million tonnes and 49.6 million tonnes respectively.

On a seasonally adjusted quarter-to-quarter comparison, total port cargo throughput decreased by 5.9% in the second quarter of 2018. Within this total, inward port cargo and outward port cargo decreased by 4.4% and 8.2% respectively compared with the preceding quarter. The seasonally adjusted series enables more meaningful shorter-term comparison to be made for discerning possible variations in trends.

### Port cargo

Within port cargo, seaborne cargo decreased by 8.8% in the second

quarter of 2018 compared with a year earlier to 42.2 million tonnes, while river cargo increased by 2.0% to 23.9 million tonnes.

Within inward port cargo, imports and inward transshipment decreased by 2.1% and 8.9% in the second quarter of 2018 compared with a year earlier to 23.9 million tonnes and 17.7 million tonnes respectively. For outward port cargo, exports (including domestic exports and re-exports) increased by 2.3% compared with a year earlier to 8.3 million tonnes, while outward transshipment decreased by 8.8% to 16.2 million tonnes.

Within port cargo, seaborne cargo decreased by 6.9% in the first half of 2018 compared with a year earlier to 82.9 million tonnes, while river cargo increased by 4.3% to 48.9 million tonnes.

Within inward port cargo, imports increased by 1.9% in the first half of 2018 compared with a year earlier to 47.9 million tonnes, while inward transshipment decreased by 6.7% to 34.3 million tonnes. For outward port cargo, exports and outward transshipment decreased by 4.9% and 4.7% compared with a year earlier to 17.2 million tonnes and 32.4 million tonnes respectively.

The detailed port cargo statistics are summarised in Table 1.

The main countries/territories of loading of inward port cargo and countries/territories of discharge of outward port cargo are shown in Table 2 and Table 3 respectively.

Comparing the second quarter of 2018 with the second quarter of 2017, double-digit increase was recorded in the tonnage of inward port cargo loaded in Malaysia (+11.4%). On the other hand, double-digit decreases were recorded in the tonnage of inward port cargo loaded in Singapore (-22.0%) and Japan (-18.3%). For outward port cargo, double-digit decreases were recorded in the tonnage of outward port cargo discharged in Macao (-40.9%), Thailand (-21.8%), Korea (-20.5%), Taiwan (-19.9%), Malaysia (-18.9%) and Japan (-10.6%).

Comparing the first half of 2018 with the first half of 2017, double-digit increase was recorded in the tonnage of inward port cargo loaded in Malaysia (+20.8%). On the other hand, double-digit decreases were recorded in the tonnage of inward port cargo loaded in Singapore (-22.7%) and Japan (-15.9%). For outward port cargo, double-digit decreases were recorded in the tonnage of outward port cargo discharged in Macao (-57.8%), Thailand (-16.5%) and Korea (-16.0%).

The principal commodities of inward port cargo and outward port cargo are shown in Table 4 and Table 5 respectively.

Comparing the second quarter of 2018 with the second quarter of 2017, double-digit increase was recorded in the tonnage of inward port cargo of "coal, coke and briquettes" (+19.0%). As for outward port cargo, double-digit changes were recorded in the tonnage of "stone, sand and gravel" (+20.0%) and

"metalliferous ores and metal scrap" (-27.3%).

Comparing the first half of 2018 with the first half of 2017, double-digit decrease was recorded in the tonnage of inward port cargo of "artificial resins and plastic materials" (-14.5%). As for outward port cargo, double-digit changes were recorded in the tonnage of "logs and timber; wood, simply worked" (+15.3%) and "metalliferous ores and metal scrap" (-20.0%).

## Containers

In the second quarter of 2018, the port of Hong Kong handled 4.98 million TEUs of containers, representing a decrease of 7.3% compared with a year earlier. Within this total, laden and empty containers decreased by 7.9% and 3.8% to 4.22 million TEUs and 0.76 million TEUs respectively. Among laden containers, inward and outward containers decreased by 7.3% and 8.6% to 2.22 million TEUs and 2.00 million TEUs respectively.

For the first half of 2018, the port of Hong Kong handled 9.87 million TEUs of containers, representing a decrease of 3.7% compared with a year earlier. Within this total, laden containers decreased by 5.1% to 8.36 million TEUs, while empty containers increased by 4.4% to 1.50 million TEUs. Among laden containers, inward and outward containers decreased by 4.9% and 5.3% to 4.35 million TEUs and 4.02 million TEUs respectively.

On a seasonally adjusted quarter-to-quarter comparison, laden container throughput decreased by 7.5% in the second quarter of 2018. Within this total, inward and outward laden containers decreased by 7.3% and 7.8% respectively.

In the second quarter of 2018, seaborne laden containers decreased by 11.1% compared with a year earlier to 3.01 million TEUs, while river laden containers increased by 1.3% to 1.21 million TEUs.

Within inward laden containers, imports and inward transshipment decreased by 7.7% and 7.1% in the second quarter of 2018 compared with a year earlier to 0.66 million TEUs and 1.56 million TEUs respectively. For outward laden containers, exports and outward transshipment decreased by 8.8% and 8.5% to 0.56 million TEUs and 1.45 million TEUs respectively.

In the first half of 2018, seaborne laden containers decreased by 8.5% compared with a year earlier to 5.93 million TEUs, while river laden containers increased by 4.5% to 2.43 million TEUs.

Within inward laden containers, imports and inward transshipment decreased by 5.4% and 4.7% in the first half of 2018 compared with a year earlier to 1.29 million TEUs and 3.05 million TEUs respectively. For outward laden containers, exports and outward transshipment decreased by 6.1% and 4.9% to 1.11 million TEUs and 2.91 million TEUs respectively.

The detailed container statistics are summarised in Table 6.

Port cargo and laden container statistics are compiled from a sample of consignments listed in the cargo manifests supplied by shipping companies and agents to the C&SD.

## Vessel arrivals

Comparing the second quarter of 2018 with the second quarter of 2017, the number of ocean vessel arrivals decreased by 4.6% to 6 495, with the total capacity also decreasing by 5.1% to 102.1 million net registered tons. Meanwhile, the number of river vessel arrivals decreased by 5.2% to 38 056, with the total capacity also decreasing by 11.4% to 27.1 million net registered tons.

Comparing the first half of 2018 with the first half of 2017, the number of ocean vessel arrivals decreased by 5.0% to 12 756, with the total capacity also decreasing by 4.8% to 201.1 million net registered tons. Meanwhile, the number of river vessel arrivals decreased by 3.7% to 76 016, with the total capacity also decreasing by 7.5% to 55.7 million net registered tons.

The statistics on vessel arrivals in Hong Kong are given in Table 7.

Vessel statistics are compiled by the Marine Department primarily from general declarations submitted by ship masters and authorised shipping agents. Pleasure vessels and fishing vessels plying exclusively within the river trade limits are excluded.
