Suspects in connection with a robbery case returned to Hong Kong (with photo)

Hong Kong Police received three suspects and the stolen goods in connection with a robbery case from the Shenzhen Public Security Bureau at the Lok Ma Chau Boundary Control Point today (August 4).

The Police Director of Crime and Security, Mr Li Chi-hang spoke at the surrender ceremony held at Huanggang, Shenzhen that Hong Kong Police were grateful for the invaluable assistance rendered by the Ministry of Public Security, the Guangdong Provincial Public Security Department and the Shenzhen Public Security Bureau, which resulted in the arrest of the three suspects.

“The surrender ceremony today demonstrates the joint efforts of the Police of the two places in combating crimes. It also sends an unequivocal message to the society that Police of the two places are determined to combat crimes and protect lives and property of the people,” Mr Li said.

“Police of the two places will continue to step up policing cooperation so as to safeguard law and order and secure people’s lives and property.”

The three local male suspects, aged between 36 and 41, are in suspected connection with a robbery case in Tsim Sha Tsui on July 1 this year in which a jewellery shop was robbed of watches and bracelets worth about \$23.5 million.

Investigation by Regional Crime Unit of Kowloon West revealed that some suspects might have left for the Mainland, Hong Kong Police sought the assistance of the Ministry of Public Security, the Guangdong Provincial Public Security Department and the Shenzhen Public Security Bureau. The three suspects were subsequently arrested in Shenzhen.

Hong Kong Police arrested four male and four female suspects in Hong Kong.

Active investigation by the Regional Crime Unit of Kowloon West is underway.

Cluster of Rhinovirus cases in Cheshire Home, Chung Hom Kok

The following is issued on behalf of the Hospital Authority:

The spokesperson of the Cheshire Home, Chung Hom Kok made the following announcement today (August 4):

Five patients (Three male and two female, aged 55 to 64) and four staff members of a long stay male ward and a long stay female ward had presented with upper respiratory tract infection symptoms since July 21. Appropriate viral tests have been arranged for the patients and three of the test results were positive to Rhinovirus. The concerned patients are being treated under isolation with stable condition. Three staff members have recovered and are back to work and one is still on sick leave.

Admission to the concerned wards has been suspended and restricted visiting has been imposed. Infection control measures have already been stepped up according to established guidelines. All other patients in the concerned wards are under close surveillance.

The cases have been reported to Hospital Authority Head Office and the Centre for Health Protection for necessary follow up.
