

Update on number of dengue fever cases

The Centre for Health Protection (CHP) of the Department of Health today (July 27) reported the latest number of cases of dengue fever (DF), and again urged the public to maintain strict environmental hygiene, mosquito control and personal protective measures both locally and during travel.

From July 20 to 26, the CHP recorded three confirmed DF cases. The patients had been to Cambodia, India and Indonesia (one case each) during the incubation period.

As of yesterday (July 26), 51 cases had been confirmed this year, all of which were imported cases. The cases were mainly imported from Thailand (21), the Philippines (10) and Cambodia (seven).

DF remains endemic in some areas in Asia and beyond. In Guangdong, there were 100 cases, including 18 local cases, as of July 23 this year, which is 38 per cent higher than that in the corresponding period last year. The latest figures for 2018 reveal that 35 754 cases have been recorded in Thailand and 1 560 in Singapore (since December 31, 2017). Five local cases have been recorded to date in Taiwan in 2018.

The public should take heed of the following advice on mosquito control:

- Thoroughly check all gully traps, roof gutters, surface channels and drains to prevent blockage;
- Scrub and clean drains and surface channels with an alkaline detergent compound at least once a week to remove any deposited mosquito eggs;
- Properly dispose of refuse, such as soft drink cans, empty bottles and boxes, in covered litter containers;
- Completely change the water of flowers and plants at least once a week. The use of saucers should be avoided if possible;
- Level irregular ground surfaces before the rainy season;
- Avoid staying in shrubby areas; and
- Take personal protective measures such as wearing light-coloured long-sleeved clothes and trousers and apply insect repellent containing DEET to clothing or uncovered areas of the body when doing outdoor activities.

To reduce the risk of infections spread by mosquitoes, apart from [general measures](#), travellers returning from affected areas should apply insect repellent for 14 days (DF) or at least 21 days (Zika virus infection) upon arrival in Hong Kong. If feeling unwell, seek medical advice promptly and provide travel details to the doctor. DEET-containing insect repellents are effective and the public should take heed of the tips below:

- Read the label instructions carefully first;

- Apply right before entering an area with risk of mosquito bites;
- Apply on exposed skin and clothing;
- Use DEET of up to 30 per cent for pregnant women and up to 10 per cent for children*;
- Apply sunscreen first, then insect repellent; and
- Re-apply only when needed and follow the instructions.

* For children who travel to countries or areas where mosquito-borne diseases are endemic or epidemic and where exposure is likely, those aged 2 months or above can use DEET-containing insect repellents with a DEET concentration of up to 30 per cent.

The public may refer to the CHP's [tips for using insect repellents](#) for details.

HAD to open temporary night heat shelters

The Home Affairs Department will open 18 temporary night heat shelters tonight (July 27) for people in need of the service.

The shelters will be open from 10.30pm until 8am tomorrow.

For further information, please call the department's enquiries hotline before midnight on 2835 1473.

The 18 night heat shelters are located at:

Hong Kong Districts:

Central and Western –
Sai Ying Pun Community Complex Community Hall
3/F, Sai Ying Pun Community Complex
2 High Street, Sai Ying Pun

Eastern/Wan Chai –
Causeway Bay Community Centre
Waiting Lobby, 3/F, 7 Fook Yum Road, Causeway Bay

Southern –
Lei Tung Community Hall
Lei Tung Estate, Ap Lei Chau

Kowloon Districts:

Kowloon City –

Hung Hom Community Hall

Multi-purpose Room, 1/F, Kowloon City Government Offices

42 Bailey Street, Hung Hom

Kwun Tong –

Lam Tin (West) Estate Community Centre

71 Kai Tin Road, Lam Tin

Sham Shui Po –

Shek Kip Mei Community Hall

G/F, Block 42, Shek Kip Mei Estate

Nam Cheong Street, Sham Shui Po

Wong Tai Sin –

Tsz Wan Shan (South) Estate Community Centre

Hall, G/F, 45 Wan Wah Street, Tsz Wan Shan

Yau Tsim Mong –

Henry G Leong Yaumatei Community Centre

60 Public Square Street, Yau Ma Tei

New Territories Districts:

Islands –

Tung Chung Community Hall

G/F, Tung Chung Municipal Services Building,

39 Man Tung Road, Tung Chung

Kwai Tsing –

Kwai Shing Community Hall

Podium, Block 6, Kwai Shing West Estate, Kwai Chung

North –

Cheung Wah Community Hall

Cheung Wah Estate, Fanling

Sai Kung –

Hang Hau Community Hall

G/F, Sai Kung Tseung Kwan O Government Complex,

38 Pui Shing Road, Hang Hau, Tseung Kwan O

Sha Tin –

Lung Hang Estate Community Centre

Lung Hang Estate, Sha Tin

Tai Po –

Tai Po Community Centre
2 Heung Sze Wui Street, Tai Po

Tsuen Wan –
Lei Muk Shue Community Hall
G/F, Hong Shue House, Lei Muk Shue Estate, Tsuen Wan

Tuen Mun –
Butterfly Bay Community Centre
Butterfly Estate (near Tip Sum House), Tuen Mun

Yuen Long –
Long Ping Community Hall
Long Ping Estate, Yuen Long

Yuen Long –
Tin Yiu Community Centre
Tin Yiu Estate, Tin Shui Wai

The temporary night heat shelters will resume their functions as either community centres or community halls in the daytime for hire by the local community and cannot continue to be open as heat shelters. People may choose to take refuge from the heat during the daytime in the common areas in any of the 21 designated community centres or community halls. Their opening hours are from 9am to 10pm. For addresses of the community centres or community halls, please browse the following webpage:

www.had.gov.hk/file_manager/en/documents/public_services/emergency_services/List_CH_CC_Day_E.pdf.

Grading of beach water quality released

The Environmental Protection Department (EPD) today (July 27) released the latest grading of water quality for 38 gazetted beaches and one non-gazetted beach (Discovery Bay) that are open for swimming.

Eighteen beaches were rated as Good (Grade 1), 18 as Fair (Grade 2) and three as Poor (Grade 3).

Grade 1 beaches are:

Chen, C. H. (2003). The effects of the 1997 Asian financial crisis on the export performance of Chinese firms. *Journal of International Business Studies*, 34(1), 1-15.

Scottish Sheep Shearers' Union

Grade 2 beaches are:

- | | |
|--------------------|-----------------------|
| Anglers' Beach | Hoi Mei Wan Beach |
| Approach Beach | Kadoorie Beach |
| Big Wave Bay Beach | Lido Beach |
| Butterfly Beach | Ma Wan Tung Wan Beach |

Cafeteria New Beach	Middle Bay Beach
Cafeteria Old Beach	Shek O Beach
Clear Water Bay First Beach	Silver Mine Bay Beach
Clear Water Bay Second Beach	Silverstrand Beach
Discovery Bay	Stanley Main Beach

Grade 3 beaches are:

Casam Beach	Ting Kau Beach
Castle Peak Beach	

Compared with the grading released last week, Golden Beach has been upgraded from Grade 2 to Grade 1 and Silver Mine Bay Beach from Grade 3 to Grade 2. Casam Beach has been changed from Grade 2 to Grade 3.

"The changes are generally within the normal range of fluctuation of the bacteriological water quality of the beaches," an EPD spokesman said.

Under the present grading system, beaches are classified into four grades according to the level of E. coli in the water. Grades are calculated on the basis of the geometric mean of the E. coli counts on the five most recent sampling occasions.

While the ratings represent the general water quality at the beaches, the EPD spokesman reminded members of the public that water quality could be temporarily affected during and after periods of heavy rain. Bathers should avoid swimming at beaches for up to three days after a storm or heavy rainfall.

A summary of beach grades is published weekly before the weekend. The latest beach grades based on the most current data may be obtained from the department's websites on Beach Water Quality (www.beachwq.gov.hk and www.epd.gov.hk/epd/beach) or the beach hotline, 2511 6666.

FS to visit three cities of Guangdong-HK-Macao Bay Area

The Financial Secretary, Mr Paul Chan, will visit three cities of the Guangdong-Hong Kong-Macao Bay Area (the Bay Area), namely Guangzhou, Foshan and Jiangmen, on July 30 and 31.

He will meet with senior officials of the Guangdong Provincial Government and the Foshan and Jiangmen Municipal Governments, visit local innovation and technology companies, as well as the HKUST LED-FPD Technology R&D Center at Foshan. Co-initiated by the Hong Kong University of Science and Technology and the Nanhai District Government of Foshan City, the Center focuses on technology development of LED (light-emitting diode) and FPD (flat panel display).

Mr Chan will return to Hong Kong in the evening on July 31. During his absence, the Secretary for Financial Services and the Treasury, Mr James Lau, will act as Financial Secretary.

Producer Responsibility Scheme on Waste Electrical and Electronic Equipment to be implemented on August 1 (with photos)

The Producer Responsibility Scheme on Waste Electrical and Electronic Equipment (WPRS), covering air-conditioners, refrigerators, washing machines, televisions, computers, printers, scanners and monitors (collectively referred to as regulated electrical equipment, or REE), will come into effect on August 1 (next Wednesday) this year.

The Secretary for the Environment, Mr Wong Kam-sing, today (July 27) met with representatives of relevant trade associations to review the preparation work by the trade, the Environmental Protection Department (EPD) and the operator of WEEE€\$PARK for the implementation of the WPRS.

Mr Wong said, "To prepare for the implementation of the WPRS, the EPD has been maintaining close collaboration with the trade over the past few years and has its support. The Scheme will facilitate the collection of waste electrical and electronic equipment generated locally for proper recycling and turning the items into resources."

Starting August 1 this year, sellers are required to arrange free statutory removal service for customers when they purchase a new item of REE. Sellers are also required to provide a receipt containing the prescribed wording on the recycling levies, and a recycling label. Mr Wong reminded members of the public that they can request the seller to arrange the delivery of a new item and the removal of an item of waste equipment to be done on the same day without additional charge.

In addition to viewing Announcements in the Public Interest on television and posters, members of the public can also visit the thematic website weee.gov.hk to obtain more details about the WPRS. If members of the public have any questions on the implementation arrangement of the WPRS when they purchase a new item of REE, they can contact the relevant seller or call the EPD hotline 2310 0223 for enquiries. A set of frequently asked questions and answers has been set out in the Annex.

Regarding the implementation arrangements of the WPRS, Mr Wong said, "During the early stage of implementation, it may take time for members of the public and the trade to get accustomed to the new arrangements and operational flow. To facilitate the smooth implementation of the scheme, the EPD has asked the operator of WEEE—SPARK to gear up for the possible substantial increase in demand for collection services during the initial period. The operator has collaborated with its logistics partners to arrange additional vehicles and manpower to strive to meet the service demands and its performance pledge to deliver the removal service from the fourth working day at the earliest after receiving a service request. We will closely monitor its operation and maintain close liaison with relevant trade organisations."

He added, "At today's meeting, the trade representatives expressed their support for the scheme. We also agreed to maintain close communication to review the implementation of the WPRS at a suitable juncture."

In the past few months, the EPD conducted 17 briefings for members of the trade, shop visits, and about 20 one-stop-application sessions to facilitate the submission of registration and endorsement applications by the trade. As at July 26 this year, the EPD had received 2 085 applications for endorsement of removal service plans by REE sellers, of which 1 383 had been approved. At the same time, 182 applications had been received for registration as suppliers, of which 149 had been approved. Most of the outstanding applications were received in the past week and the department will process these applications as soon as possible. Sellers and suppliers who have yet to submit applications should take immediate action to file applications.

In addition, in order to enable retailers to better understand the legal requirements, the EPD has sent staff to visit shops selling REE in various districts over the past few months to remind their responsible persons and front-line staff to observe the new legislation. When the legislation comes into force, the EPD will conduct investigations through multiple channels and take enforcement actions against shops which are suspected of breaching the law.

Under the Promotion of Recycling and Proper Disposal (Electrical Equipment and Electronic Equipment) Ordinance, starting August 1 this year, a seller of REE must have a removal service plan (RSP) endorsed by the EPD for selling REE, and must notify consumers in writing of the arrangements of the statutory removal service and the relevant terms of service before entering into a sales contract. A seller should ensure the relevant arrangements have

been clearly explained to the customer during the sales process, so that the consumer can make a choice according to his or her own needs. A seller who does not arrange free removal service according to the endorsed RSP commits an offence and is liable to a maximum fine of \$100,000 on the first conviction, while a seller who has not notified the consumer according to the legislation is liable to a maximum fine of \$5,000 on the first conviction.

REE sellers must also provide consumers with the corresponding recycling label alongside the sold REE and a receipt showing the prescribed wording on the recycling levies for identifying the REE distributed under the WPRS.

In addition, starting August 1 this year, a supplier of REE must register with the EPD before distributing REE. Offenders are liable to a maximum fine of \$100,000 on conviction.
