The Environment Agency publish permits that they issue under the Industrial Emissions Directive (IED).

This decision includes the permit and decision document for:

- Operator name: Vinnals Poultry Limited
- Installation name: The Vinnals Poultry Farm

Press release: Greater Manchester's first smart motorway is fully-operational

The technology went live on Tuesday 31 July 2018 on the final M60 section between junction 10 and junction 18, meaning that the whole of the motorway between junction 8 of the M60 at Sale and junction 20 of the M62 at Rochdale is fully-operational.

As well as an extra running lane in each direction along the M62 between junction 18 and junction 20, intensive extra technology, such as CCTV cameras and electronic signs, has been provided along both M60 and M62 sections. Variable mandatory speed limits are guiding traffic along the motorway at steady speeds – tackling congestion and frustrating stop-start driving conditions.

Highways England senior project manager Jonathan Stokes, said:

Going 'live' this week marks the most significant milestone for this project. We would like to thank users of the M60 and M62 and people living around them for their patience and support over the last few years while we have worked to deliver this vital investment in what is an almost uniquely complex environment.

Although this is the first smart motorway in the North West the system has been running successfully in other parts of the country for several years – including around Leeds – and we're confident it will deliver safer, smoother and more reliable journeys.

The removal of narrow lanes and completion of the project now paves the way for key sections of the M60 to be resurfaced – with the programme of overnight resurfacing and bridge maintenance set to begin later this month.

This is part of Highways England's £100 million investment in maintenance work across the North West. The resurfacing will reduce the need for further maintenance, meaning less disruption in the long run. All work is taking place at night to minimise disruption to drivers.

The first phase of this work will begin later this month and involves resurfacing between junctions 15 and 12 and between junctions 10 and 12. Some overnight closures will be required. Further details on remaining work will be publicised nearer the time.

Four more smart motorway improvements – worth £500 million and delivering 90 miles of extra lanes to the local motorway network – are also due to be constructed during the next few years. The first of these – the M62 junction 10 to junction 12 project which will link the M6 near Warrington to the M60 near Eccles – is due to start later this month while M56 (junctions 6 to 8), M6 (junctions 21a to 26) and M62 (junctions 20 to 25) schemes are also planned.

With the first smart motorway in the North West now in operation drivers are being encouraged to think about how to make the best of the new system with [guidance](#) available.

General enquiries

Members of the public should contact the Highways England customer contact centre on 0300 123 5000.

Media enquiries

Journalists should contact the Highways England press office on 0844 693 1448 and use the menu to speak to the most appropriate press officer.

News story: Re-appointments to the Board of AHDB

Environment Secretary Michael Gove, with the approval of the Devolved Administrations, has reappointed George Lyon and Paul Temple to the Board of AHDB for second terms.

The re-appointments have been made in accordance with the Governance Code on Public Appointments issued by the Cabinet Office. Both re-appointments will run from 1 April 2018 till 31 March 2021.

All appointments are made on merit and political activity plays no part in the selection process. However, in accordance with the original Nolan recommendations, there is a requirement for appointees' political activity to be made public.

George Lyon

George Lyon has already served a term of three years on the AHDB and is Chair of the AHDB Remuneration & Nominations Committee, Chair of Meat & Livestock Commercial Services Limited (MLCSL) and has been a senior consultant for the agri-food practice of Hume Brophy since 2015.

George was a member of the European Parliament in 2009 till 2014, serving on

the Agricultural and Rural Affairs committee. He played a central role in negotiating key aspects of agreements on both CAP reform and the EU budget, and also worked on issues related to trade policy, with a particular focus on EU relations with the US and the emerging negotiations on TTIP.

George will receive £11,100 per annum based on his commitment of 36 days.

Paul Temple

Paul Temple has already served one three year term on the AHDB Board and chairs the Cereals & Oilseeds sector board. He is a past Vice President for the NFU, chairman of the COPA COGECA Cereals, Oilseeds & Protein Group and founder of the European Biotech Forum and previously sat on the National Non Food Crops Centre Board. He also serves as Voluntary Initiative Chairman (VI Chairman). Paul farms 312 hectares in partnership on the East Yorkshire Wolds, producing cereals for seed, oilseed rape, vegetables and beef.

Paul has not declared any political activity in the past five years.

Paul will receive £32,000 per annum based on a time commitment of 104 days.

Notes:

- AHDB is an independent Non-Departmental Public Body created under the Agriculture and Horticulture Development Board Order, 2008.
- The Board for AHDB comprises a Chairman and nine members.
