

Guidance: Excavated waste from utilities installation and repair: RPS 211

If you follow the conditions in this regulatory position statement (RPS), you do not need to apply a hazardous waste classification for excavated wastes covered by this RPS.

If you cannot comply with the conditions in this RPS you must assess and classify all excavated waste in line with the [hazardous waste technical guidance](#).

Version 1

News story: Recreational anglers charged for breaching bass regulations

Recreational anglers Roshid Ahmed and Suna Miah appeared at Southend Magistrates Court on 16 May 2018 in a prosecution brought by the MMO.

The court heard how both men were observed fishing for bass on Southend Pier on 29 August 2016. The bass and both men's passes to fish on Southend Pier were seized. Kent and Essex Inshore Fisheries and Conservation Authority collected and measured the fish and in total there were 68 bass retained by the two anglers, all of which were below the minimum conservation reference size of 42cm in length. The details of this were then reported to the MMO for investigation.

Both defendants pleaded guilty and offered an apology to the court stating that they were unaware of the bass regulations at the time of the offending but understand the rules currently in place.

Mr Miah was given a six month conditional discharge and ordered to pay £300 costs and a £20 victim surcharge. Mr Ahmed was also given a six month conditional discharge and ordered to pay £100 costs and a £20 victim surcharge.

A spokesperson for the MMO said:

Bass conservation is a very important issue and this was the first case relating to recreational angling for Bass to be heard in a

domestic court.

In cases like these MMO will always take proportionate and appropriate action, including prosecution, to ensure offenders do not profit from such illegal activity and to protect fish stocks for the wider fishing industry and future generations.

Notice: HU12 8DS, Kingston Research Limited: environmental permit issued

The Environment Agency publish surrenders that they issue under the Industrial Emissions Directive (IED).

This decision includes the surrender letter, decision document and site condition report evaluation template for:

- Operator name: Kingston Research Limited
- Installation name: Saltend Biobutanol Technical Demonstration Plant
- Permit number: EPR/LP3838KZ/S003

Notice: NG34 9TH, HM Venn & Sons Limited: environmental permit issued

The Environment Agency publish permits that they issue under the Industrial Emissions Directive (IED).

This decision includes the permit and decision document for:

- Operator name: HM Venn & Sons Limited
 - Installation name: Site 7, Fen Road

News story: Join the Companies House user panel

We need your help to improve our online services.

You'll need to be 18 or over. We'll ask a few questions about what you do. You don't need to be good with computers or the internet to join.

When you're on the user panel you could be asked to:

- take part in research sessions
- answer email questionnaires
- take part in telephone interviews

You can say no to any invitation and can leave the user panel at any time.

We'll use the information you provide during the user panel research sessions to:

- improve our existing services
- develop new services

The information you give will be fully confidential and stored securely under our [personal information charter](#).
