

Press release: Foreign flagged ships detained in the UK during June 2018

During June, there were seven new detentions of foreign flagged vessels in a UK port, four vessels remained under detention from previous months. A total of five vessels remain under detention at the end of June.

1. In response to one of the recommendations of Lord Donaldson's inquiry into the prevention of pollution from merchant shipping, and in compliance with the EU Directive on Port State Control (2009/16/EC as amended), the Maritime and Coastguard agency (MCA) publishes details of the foreign flagged vessels detained in UK ports each month.
2. The UK is part of a regional agreement on port state control known as the Paris Memorandum of Understanding on Port State Control (Paris MOU) and information on all ships that are inspected is held centrally in an electronic database known as THETIS. This allows the ships with a high risk rating and poor detention records to be targeted for future inspection.
3. Inspections of foreign flagged ships in UK ports are undertaken by surveyors from the Maritime and Coastguard Agency. When a ship is found to be not in compliance with applicable convention requirements, a deficiency may be raised. If any of their deficiencies are so serious they have to be rectified before departure, then the ship will be detained.
4. All deficiencies should be rectified before departure if at all possible.
5. When applicable, the list includes those passenger craft prevented from operating under the provisions of the EU Directive on Mandatory Surveys for the safe operation of regular Ro-Ro ferry and high speed passenger craft services (1999/35/EU).

Notes on the list of detentions

- Full details of the ship. The accompanying detention list shows ship's International Maritime Organization (IMO) number which is unchanging throughout the ship's life and uniquely identifies it. It also shows the ship's name and flag state at the time of its inspection.
- Company. The company shown in the vessel's Safety Management Certificate (SMC) or if there is no SMC, then the party otherwise believed to be responsible for the safety of the ship at the time of inspection.

- Classification Society. The list shows the Classification Society responsible for classing the ship only.
- Recognised Organisation. Responsible for conducting the statutory surveys: and issuing statutory certificates on behalf of the Flag State
- White (WL), Grey (GL) and Black lists (BL) are issued by the Paris MoU on 01 July each year and shows the performance of flag State.

Press release: Foreign flagged ships detained in the UK during June 2018

During June, there were seven new detentions of foreign flagged vessels in a UK port, four vessels remained under detention from previous months. A total of five vessels remain under detention at the end of June.

1. In response to one of the recommendations of Lord Donaldson's inquiry into the prevention of pollution from merchant shipping, and in compliance with the EU Directive on Port State Control (2009/16/EC as amended), the Maritime and Coastguard agency (MCA) publishes details of the foreign flagged vessels detained in UK ports each month.
2. The UK is part of a regional agreement on port state control known as the Paris Memorandum of Understanding on Port State Control (Paris MOU) and information on all ships that are inspected is held centrally in an electronic database known as THETIS. This allows the ships with a high risk rating and poor detention records to be targeted for future inspection.
3. Inspections of foreign flagged ships in UK ports are undertaken by surveyors from the Maritime and Coastguard Agency. When a ship is found to be not in compliance with applicable convention requirements, a deficiency may be raised. If any of their deficiencies are so serious they have to be rectified before departure, then the ship will be detained.
4. All deficiencies should be rectified before departure if at all possible.
5. When applicable, the list includes those passenger craft prevented from operating under the provisions of the EU Directive on Mandatory Surveys for the safe operation of regular Ro-Ro ferry and high speed passenger craft services (1999/35/EU).

Notes on the list of detentions

- Full details of the ship. The accompanying detention list shows ship's International Maritime Organization (IMO) number which is unchanging

throughout the ship's life and uniquely identifies it. It also shows the ship's name and flag state at the time of its inspection.

- Company. The company shown in the vessel's Safety Management Certificate (SMC) or if there is no SMC, then the party otherwise believed to be responsible for the safety of the ship at the time of inspection.
- Classification Society. The list shows the Classification Society responsible for classing the ship only.
- Recognised Organisation. Responsible for conducting the statutory surveys: and issuing statutory certificates on behalf of the Flag State
- White (WL), Grey (GL) and Black lists (BL) are issued by the Paris MoU on 01 July each year and shows the performance of flag State.

Defective item	Nature of defect	Ground for Detention
01139 – Maritime Labour Certificate	Not properly filled	No
01140 – Declaration of Maritime Labour Compliance (Part I & II)	Entries missing	No
01220 – Seafarers' employment agreement (SEA)	Invalid	No
05110 – Facilities for reception of marine safety inform.	Inoperative	No
11112 – Launching arrangements for survival craft	Not properly maintained	Yes
14104 – Oil filtering equipment	Not properly maintained	No
07105 – Fire doors/openings in fire-resisting divisions	Not as required	No
07114 – Remote means of control (opening pumps, ventilation, etc.) Machinery spaces	Not as required	No
18312 – Galley, handling room (maintenance)	Damaged	No
04102 – Emergency fire pump and its pipes	Not properly maintained	No
02108 – Electrical installations in general	Not as required	No
18304 – Lighting (Accommodation)	Damaged	No
18311 – Messroom and recreational facilities	Not as required	No
06199 – Other (cargo)	Other	No
18421-Guards – fencing around dangerous machinery parts	Damaged	No
15150 – ISM	Not as required	Yes

This vessel was released on 5th June 2018

DETENTIONS CARRIED OVER FROM PREVIOUS MONTHS

Vessel Name: ATLANTIC

GT: 2195

IMO: 8002731

Flag: St Kitts and Nevis (Black list)

Company: JMB Bjerrum & Jensen Aps

Classification Society: RINA

Recognised Organisation: RINA

Recognised Organisation for ISM Doc: DNV GL

Recognised Organisation for ISM SMC: RINA

Date and Place of Detention: 15th May 2018 at Sheerness

Summary: Nineteen deficiencies with seventeen ground for detention

Defective item	Nature of defect	Ground for Detention
18314 – Provisions quantity	Insufficient	Yes
18315 – Provisions quality and nutritional value	Not as required	Yes
01123 – Continuous synopsis record	Missing	Yes
01315 – Oil record book	Incorrect	Yes
01220 – Seafarers' employment agreement (SEA)	Not as required	Yes
01199 – Other (certificates)	Other	Yes
10105 – Magnetic compass	Not as required	Yes
10111 – Charts	Expired	Yes
05103 – Main installation	Not as required	Yes
18201 – Fitness for duty – work and rest hours	Not as required	Yes
18203 – Wages	Not according SEA	Yes
18326 – Laundry, Adequate Locker	Not as required	Yes
18413 – Warning notices	Missing	No
07110 – Fire fighting equipment and appliances	Not properly maintained	Yes
07108 – Ready availability of fire fighting equipment	Missing	Yes
07115 – Fire dampers	Not as required	Yes
99101 – Other safety in general	Other	No
15150 – ISM	Not as required	Yes
10116 – Nautical publications	Expired	Yes

This vessel was released on 1st June 2018

Vessel Name: CELTICA HAV

GT: 1537

IMO: 8422022

Flag: Bahamas

Company: HAV Ship Management NorRus AS

Classification Society: DNV GL

Recognised Organisation: DNV GL

Recognised Organisation for ISM Doc: DNV GL

Recognised Organisation for ISM SMC: DNV GL

Date and Place of Detention: 4th April 2018 at Swansea

Summary: Three deficiencies with two ground for detention

Defective item	Nature of defect	Ground for Detention
02106 – Hull damage impairing seaworthiness	Holed	Yes
10127 – Voyage or passage plan	Not as required	Yes
10111 – Charts	Not updated	No

This vessel was released on 5th June 2018

Vessel Name: SEA TRIDENT

GT: 964.

IMO No: 7393169.

Flag: PANAMA (white list)

Company:

Classification Society: Expired

Recognised Organisation: Expired

Recognised Organisation for ISM DOC:

Recognised Organisation for ISM SMC:

Date and Place of Detention: 17 June 2016, West Cowes

Summary: Seventeen deficiencies with seventeen grounds for detentions

Defective item	Nature of defect	Ground for Detention
01101 – Cargo ship safety equipment cert	Expired	Yes
01102 – Cargo Ship safety construction cert	Expired	Yes
01104 – Cargo ship safety radio cert	Expired	Yes
01108 – Loadline cert	Expired	Yes
01117 – IOPP (International Oil Pollution Prevention cert	Expired	Yes

01119 – International Sewage Pollution Prevention cert	Expired	Yes
01124 – International Air Pollution Prevention cert	Expired	Yes
01137 – Civil liability for bunker oil pollution damage cert	Expired	Yes
01199 – Other certs (Certificate of class)	Expired	Yes
01201 – Certificates for master and officers	Missing	Yes
10111 – Charts	Not updated	Yes
10116 – Publications Nautical	Not updated	Yes
11108 – Inflatable liferafts	Expired	Yes
11116 – Distress flares	Missing	Yes
07109 – Fixed fire fighting extinguishing installation	Not as required	Yes
07110 – Fire fighting equipment & appliances	Not as required	Yes
01140 – Declaration of Maritime Labour Compliance	Missing	Yes

This vessel was still detained on 30th June 2018

Vessel Name: CIEN PORCIENTO (General Cargo)

GT: 106.

IMO No: 8944446.

Flag: Unregistered.

Company: Open Window Inc.

Classification Society: Unclassed.

Recognised Organisation: Not applicable.

Recognised Organisation for ISM DOC: Not applicable.

Recognised Organisation for ISM SMC: Not applicable

Date and Place of detention: 4 March 2010, Lowestoft

Summary: Thirty deficiencies including seven grounds for detention

This vessel was still detained on 30th June 2018

Notes to Editors • The MCA is a partner in the Sea Vision UK campaign to raise awareness and understanding of the sea and maritime activities. Sea Vision promotes the importance and economic value of the sector and works to highlight the exciting range of activities and career opportunities available to young people within the UK growing maritime sector at www.seavision.org.uk

Transparency data: 2018 Government Purchasing Card (GPC) spend for transactions over £500

As part of the government's commitment to transparency in expenditure, the Forestry Commission publishes GPC spend for transactions of over £500.

[View the monthly list of all GPC transactions over £500 made by the Forestry Commission.](#)

Detailed guide: Consultation and the public registers

There are 2 public registers:

- The [Register of Grant Schemes and Felling](#) provides details of all woodland creation and tree felling proposals, other than those for thinning
- The [Register of Environmental Impact Assessment](#) provides details of all Environmental Impact Assessment decisions on forestry projects

Public Register of Grant Schemes and Felling

This register shows all applications for grant-aided woodland creation proposals and all applications for tree felling in England (excluding those only containing thinning). Most applications are for forestry work on private land.

Proposals are published on the public register for 28 days.

There are 2 lists within the Register of Grant Schemes and Felling: the G&L Online Register and the Register of New Planting and Felling.

G&L Online Register list

This register shows tree felling and woodland creation grant applications under the English Woodland Grant Scheme (EWGS). This scheme has now closed and no new cases will be published.

Register of New Planting and Felling list

Applications on this public register have a 'status' of either FPR or CNT, indicating the stage of the proposal and whether you can comment on the case or not.

- FPR: this denotes a firm proposal. You can send us comments on how the proposals may affect you during this stage, which lasts for 28 days. We consider any comments and review them with the applicant. If appropriate, the application may be amended or rejected. If you are a consultee with whom we regularly confer (such as a local authority or statutory body) then we will write to you with details of the forestry proposal and to invite you to comment via letter, email or through the public register.
- CNT: if we approve the application then the details of the approved application are displayed for information for 28 days. Proposals at this stage are not open to comment.

How to get information or submit a comment on an application on the Register of New Planting and Felling

- Click on the case reference in the 'Ref' column.
- You will be presented with a map of the forestry project location. There's a help facility denoted by a question mark that provides guidance on how to use the map controls.
- Click on the 'i' icon and then click on the relevant area on the map for basic details of the forestry project.
- Contact your local [Forestry Commission Admin Hub](#) if you require more information on the proposal. You will need to quote the case reference number (shown in the 'Ref' column). Note that personal information contained in the application (such as the applicant's name and contact details) will not be included when we provide copies of information. If the copy is large or requested regularly then we may charge a fee for this service.

Comments on applications must be submitted in writing, by email or by letter to the appropriate FC Area office clearly quoting the case reference number. They should relate to the proposal's compliance with the [UK Forestry Standard](#). The Register of New Planting and Felling is updated weekly, usually on a Monday, and you have 28 days from when the case first appears on the register to submit your comments. Comments received after the closing date will not be considered.

How we consult about grant and felling applications

Before deciding whether to approve applications for woodland planting or tree felling, the Forestry Commission may consult with local authorities and other organisations with statutory powers over land use and land use change. We will write to these bodies to seek their views on the appropriateness of the proposals, and their advice may result in proposals being amended or rejected.

The Forestry Commission will also use this consultation phase to determine if any other consents or permissions are required to enable the project to proceed, and will liaise with the applicant and the statutory body in order to seek agreement on the works required.

Public register of Environmental Impact Assessment

The Forestry Commission assesses the environmental impact of proposals that fall under any of the 4 EIA (Forestry) Regulations: afforestation (new planting), deforestation, forest roads and forest quarries. The Register of Environmental Impact Assessment shows decisions that the Forestry Commission has made during the assessment process.

The register shows details of individual cases in 3 following stages: opinion, consultation on Environmental Statement and Determination.

Opinion

The Forestry Commission's opinion on whether the project is likely to have a significant impact on the environment and therefore requires our consent. Opinions are displayed on the EIA Register for 28 days. Case details are for information only, and there is no opportunity to comment.

Where a project is likely to have a significant effect on the environment, the applicant is required to apply for EIA consent if they wish to proceed with the project. To do so, they must submit an Environmental Statement that analyses the impact of the project on the environment. The proposed work cannot proceed without consent from the Forestry Commission. Where an applicant does apply for consent, 2 further stages will be shown on the EIA register:

Consultation on Environmental Statement

As part of determining whether consent for the project will be granted or refused, a 30-day period of consultation takes place on the Environmental Statement. Comments on environmental statements must be submitted in writing, by email or by letter to the appropriate FC Area office, clearly quoting the case reference number shown on the Public Register. They should relate to the proposal's compliance with the UK Forestry Standard and how you will be affected by the proposal.

Determination

The final decision stage is when the Forestry Commission decides whether to grant or refuse consent for the project, after reviewing the Environmental Statement and the feedback collected through the consultation. Information at this stage is presented for information only to show the Forestry Commission's decision and will be displayed for 28 days.

Detailed guide: Urban forestry

Find out how to protect and manage trees and woodlands in urban areas from information provided by both Forestry Commission and urban forestry partners.

The Forestry Commission works in partnership with national and local urban forestry partners. Our partners lead the management of trees and woodlands within urban and peri-urban areas across England. The Forestry Commission's work demonstrates how protecting, expanding and improving woodland can help deliver the Government's priorities in urban areas.

Understand what the urban forest is

The urban forest is made up of all trees in towns and cities including:

- along linear transport routes and waterways – eg canals and rivers
- in amenity areas
- in urban woodlands
- in parks and informal open spaces
- along streets
- in domestic gardens
- on institutional land

[urban forest](#)

(PDF, 486KB, 2 pages)

is a big element of urban green infrastructure and contributes to all the wider benefits provided by these varied land use types.

Understand what benefits the urban forest brings to our towns and cities

The urban forest brings many benefits to our towns and cities. The Urban Forest and Woodland Advisory Committee Network (UFWACN) advises the Forestry Commission on urban forestry. Find out more about the work of the Urban FWAC Network. Their

[Urban Forestry and Woodlands Advisory Committee \(FWAC\) vision for urban](#)

[forestry](#)

(PDF, 2.9MB, 26 pages)

sets out how a resilient urban forest can deliver these benefits:

- strategic planning and infrastructure
- climate change
- natural environment
- human health and quality of life
- planning and development
- economy and growth
- value and resources
- risks and resilience

Look at

[The case for trees](#)

(PDF, 1.97MB, 28 pages)

to see great pictures of how trees improve our urban areas and to understand the benefits and evidence for the positive role that trees play as part of green infrastructure.

You can maximise the benefits of the urban forest by considering 3 principles set out in the Urban FWAC vision:

- do you know the scale and value of your urban forest?
- how well do you support the care of your existing urban forest?
- do you have a target to increase canopy cover in your town or city?

You also need to ensure that the right tree is planted in the right place.

The Trees and Design Action Group have set out [12 principles](#) to help decision makers incorporate trees in the urban area.

Understand the scale and value of the urban forest

To understand how you can value the urban forest, read

[Urban Forestry and Woodlands Advisory Committee \(FWAC\) – introduction to England's urban forests](#)

(PDF, 5.76MB, 15 pages)

. The Urban FWAC Network has also published a

[guide to using tree canopy cover data](#)

(PDF, 922KB, 6 pages)

as an indicator of the extent, and to secure the benefits of the urban forest, using [i-Tree Canopy](#). It demonstrates [the variability in tree canopy cover across England's towns and cities](#).

To more fully assess the value of the urban forest in your area, you can support or participate with i-Tree Eco surveys. In the UK this started with [Torbay](#) in 2011 and is still happening, the most current survey being in

[Bristol](#). Forestry Commission led the development of iTree London, which estimated that the city's 8.4 million trees provide more than £133 million worth of benefits annually. i-Tree Eco assesses the value of certain ecosystem services delivered by trees. Read their final report, [Valuing London's urban forest](#) (PDF, 5.59MB, 84 pages)

[Find out where iTree Eco surveys have happened.](#)

Find out more on iTree Eco direct from [i-Tree](#), from [Forest Research](#), or the social enterprise [Treeconomics](#).

You can use [Treezilla](#) to help generate a 'monster map' of urban trees.

For London, you can access data on the status of woodland management with [Making London's woodlands work: summary](#). (PDF, 3.59MB, 4 pages)

It outlines the proportion of London's woodlands in sustainable management and opportunities / barriers to management. Read the [full report](#). (PDF, 5.94MB, 56 pages)

Ensure resilience of the urban forest

Data on the urban forest individual towns and cities enables effective management of the urban forest in those locations. This data can be the basis of a Tree and Woodland Strategy, which can outline objectives, management and monitoring approaches for a local authority area. Find out [how to develop a Tree and Woodland Strategy](#) (based on work in London).

The [Right Trees for a Changing Climate](#) database helps you decide what trees are suitable to plant in urban areas in face of a changing climate. TDAG have set out [species selection for green infrastructure](#).

Large trees bring particular value to the urban environment. The Forestry Commission assisted [the Construction Industry Research and Information Association](#) (CIRIA) and partners to produce [The benefits of large species trees in urban landscapes: a costing, design and management guide](#), which you can buy. It highlights how to integrate large species trees into new and existing developments.

[Tree Preservation Orders](#) help to protect the urban forest, as a key part of green infrastructure. They are issued by local authorities.

Further guidelines, produced in London, can help in managing the urban forest:

- [woodland management](#)

(PDF, 2.41MB, 12 pages)

- [woodland management for bats](#)
(PDF, 2.67MB, 24 pages)
- [woodfuel](#)
(PDF, 2.63MB, 28 pages)
- [social dynamics of trees](#)
(PDF, 3.26MB, 24 pages)

Manage the risks, including tree health, in the urban forest

Find out about [tree pests and diseases](#) and make sure your [biosecurity measures](#) are appropriate.

The [National Tree Safety Group \(NTSG\)](#) brings together organisations with expertise in tree risk management who offer [free guidance for you to download](#).

The [Joint Mitigation Protocol](#) (JMP) sets out best practice in investigating building damage where trees are implicated as being the cause of building movement. Find out more from the [London Tree Officers Association](#).

Support people to enjoy and care for their local urban forest

These partners work in different locations across England to engage local communities with their urban trees and woodlands:

- [England's Community Forests](#) – the economic impact of community forests has been measured in a number of localities, including for the [Mersey Forest](#) and the [Forest of Marston Vale](#).
- [The Woodland Trust](#)
- [Tree Council](#)
- [Trees for Cities](#)

The [Northern Forest](#) will include tree planting in urban areas.

Evidence to help you manage the urban forest

Forest Research is the research agency of the Forestry Commission. They develop evidence on the benefits and value of [urban forestry](#), eg:

- planning green networks for urban communities
- exploring urban health inequalities
- identifying the social and economic value of street trees
