

# News story: Regional Flood and Coastal Committee (RFCC) chair appointments

Following a recruitment campaign for four [Regional Flood and Coastal Committee \(RFCC\)](#) posts – Anglian (Central), Anglia (Eastern), Severn and Wye and Southern – the Department for Environment, Food and Rural Affairs (Defra) is pleased to announce the following four RFCC Chair appointments:

- Brian West Stewart as the Chair of the Anglian (Central) RFCC
- Paul Hayden as the Chair of the Anglian (Eastern) RFCC
- Shirel Stedman as the Chair of Severn and Wye RFCC
- Dr Martin Hurst as the Chair of Southern RFCC

Brian West Stewart's appointment runs from 2 January 2018 for three years until 1 January 2021.

The remaining appointments will run from 1 July 2018 for three years until 30 June 2021.

We have also re-appointed four RFCC Chairs for a further three years from when their current terms end on 30 June 2018:

- Eddy Poll as the Chair of Anglian (Northern) RFCC
- Vij Randeniya as the Chair of Trent RFCC
- David Jenkins as the Chair of Wessex RFCC
- Colin Mellors as the Chair of Yorkshire RFCC

Their terms will continue to run from 1 July 2018 until 30 June 2021.

All the appointments followed procedures set out in the [Ministerial Governance Code for Public Appointments](#) which came into force on 1 January 2017. There is a requirement for appointees' political activity (if significant) to be declared. None of the appointees for Anglian Central, Anglian Eastern, Severn & Wye and Southern have declared any significant political activity during the past five years.

RFCCs help to provide governance for the [Environment Agency \(EA\)](#) Flood and Coastal Erosion risk management functions and cover all flood risks that are not the responsibility of the water companies.

They have three main purposes:

- to ensure there are coherent plans for identifying, communicating and managing flood and coastal erosion risks across catchments and shorelines
- to promote efficient, targeted and risk-based investment in flood and coastal erosion risk management that optimises value for money and benefits for local communities
- to provide a link between the EA, Lead Local Flood Authorities, other risk management authorities, and other relevant bodies to engender

mutual understanding of flood and coastal erosion risks in its area

All Chair posts attract a remuneration currently set at £17,503 for a commitment of five days per month.

Background details of the four appointed RFCC Chairs for Anglian Central, Anglian Eastern, Severn & Wye and Southern are as follows:

### **ANGLIAN (CENTRAL) RFCC**

Brian Stewart OBE is now a portfolio non-executive director and consultant, following an executive career in local and regional government. From 2000 to 2010 he was the Chief Executive of the East of England Regional Assembly. He now sits on the main Board of Clarion Housing Group and is Vice Chair of its subsidiary stock holding Housing Association. He also chairs the Sizewell C Community Forum, sits on the HS2 Need to Sell Scheme Panel and is Vice Chair of Ormiston Families; a major East Anglian children's charity.

### **ANGLIAN (EASTERN) RFCC**

Paul Hayden has been the Chair of the Anglian (Eastern) RFCC since its inception in 2011, working with stakeholders to maximise the opportunities for local decision-making and partnership working. He is a disaster risk reduction and management specialist by background, with 38 years' experience including 15 years working at an international level where he has specialised in natural hazards and climate change related projects. He led national coordination of rescue responses during the 2007 floods and subsequently sat on the Cabinet Committee formed to oversee implementation of the "Pitt Review" recommendations. He was also appointed by Defra to boards responsible for establishment of the Flood Forecasting Centre and delivery of the Flood Rescue National Enhancement Project. In addition to his RFCC and consultancy roles, Paul is a Non-Executive Director of the UK's Natural Environment Research Council, (NERC). He is a contributory author to the World Handbook on Drowning, and is a visiting lecturer at University College London and University of Mauritius. He was appointed as an Officer of the Order of the British Empire in the New Year 2018 Honours list and was awarded the Queens Fire Service Medal in the New Year 2010 Honours List. He has an MA in Management and Public Administration, and an MSc in Fire Command and Disaster Management.

### **SEVERN AND WYE RFCC**

Shirel Stedman is currently the Director of Advisory Group, Water Europe at Royal HaskoningDHV providing strategic direction and driving commercial acumen to the group. Early in Shirel's career, she trained as a paramedic in the Army establishing core values of collaboration and compassion. Shirel is a leading Civil Engineer within the UK water industry, and has a reputation that has been established over 25 years in this sector. Shirel first joined the Midlands Regional Flood and Defence Committee (RFDC) in 2008 and has continuously served until the present day. She was the Director of Central and Local Government Partnerships at AECOM, responsible for forming teams of technical, managerial and business development staff for a variety of short-

term projects for a range of clients and sectors. Shirel has significant experience within the Midlands and was a Project Director for key Midlands region flood alleviation schemes. Between 2006 and 2009, she worked as a Resources Director at Halcrow and was responsible for over 500 staff. During this time she won a commendation from South Derbyshire MP Mark Todd for her work with communities on the River Dove Strategy. Shirel has been a board member of Chartered Institution of Water and Environmental Management and was appointed as the institutions first Managing Director in January 2016. Shirel is a member of the Engineering Council, the Institution of Civil Engineers and the Chartered Institution of Water and Environmental Management.

## **SOUTHERN RFCC**

Dr Martin Hurst had a long career as a senior civil servant and professional economist, including as environment, housing and planning advisor in Number 10, and Flood and Water Director in Defra – in which he played a leading role in the government’s response to the 2007 floods and the subsequent Pitt review and Flood and Water Management Act 2010. He has wide voluntary sector experience – as trustee and non-executive director – over the past 15 years – and he has a track record of working with the water industry and with local government. Martin is currently chair of finance and treasury for two large housing associations, a visiting lecturer on major infrastructure appraisal at University College London, and has a number of water and housing related trustee, corporate finance advisor and consumer champion roles.

## **Press release: World-leading microbeads ban takes effect**

Image credit: MPCA Photos on Flickr. Used under Creative Commons.

A ban on the manufacture of products containing microbeads has come into force today – a landmark step in the introduction of one of the world’s toughest bans on these harmful pieces of plastic.

Environment Minister Thérèse Coffey has announced that manufacturers of cosmetics and personal care products will no longer be able to add tiny pieces of plastic known as ‘microbeads’ to rinse-off products such as face scrubs, toothpastes and shower gels.

These damaging beads can cause serious harm to marine life, but the UK’s ban – praised by campaigners as one of the toughest in the world – will help to stop billions of microbeads ending up in the ocean every year. Alongside the success of the government’s 5p plastic bag charge – which has taken nine billion bags out of circulation – the ban puts the UK at the forefront of international efforts to crack down on plastic pollution.

Environment Minister Thérèse Coffey said:

The world's seas and oceans are some of our most valuable natural assets and I am determined we act now to tackle the plastic that devastates our precious marine life.

Microbeads are entirely unnecessary when there are so many natural alternatives available, and I am delighted that from today cosmetics manufacturers will no longer be able to add this harmful plastic to their rinse-off products.

Now we have reached this important milestone, we will explore how we can build on our world-leading ban and tackle other forms of plastic waste.

Dilyana Mihaylova, Marine Plastics Projects Manager at Fauna & Flora International, said:

Fauna & Flora International has been working to address the issue of plastic microbead pollution since 2009, and we are delighted that the Government took such a clear stand on this issue and that a robust UK microbeads ban comes into force today.

We hope this ban signals the dawn of a new era in the fight for cleaner, healthier oceans, with the UK leading the way and supporting other countries to ensure that plastic will no longer reach the environment.

Dr Sue Kinsey, Senior Pollution Officer at the Marine Conservation Society, said:

We are delighted that such a robust microbead ban has come into force. This is the strongest and most comprehensive ban to be enacted in the world and will help to stem the flow of micro plastics into our oceans.

We believe that this signals a real commitment on the part of this Government to clean up our seas and beaches and hope this is a first step on this road before we see further actions to combat plastic waste.

Today's announcement comes ahead of the government's upcoming 25 Year Environment Plan, which will set out how we will be the first generation to leave the environment in a better state than we inherited it and create clean, healthy and productive oceans.

A ban on the sale of products containing microbeads will follow later in the year.

## **Press release: Statement by Secretary of State for Northern Ireland Karen Bradley**

It is a great honour to be asked to serve as Secretary of State for Northern Ireland, particularly at such a decisive moment for Northern Ireland and the whole United Kingdom. I would like to pay the warmest tribute to my predecessor and friend, James Brokenshire, who did such an outstanding job. I wish him all the very best for his medical treatment and for a speedy recovery.

Northern Ireland is a very special part of our United Kingdom and has huge potential. A key part of my role will be to help build a Northern Ireland that is fit for the future and works for everyone. In seeking to achieve that I want to work closely with all parties, the Irish government as appropriate, and with all sections of the community. Be assured the UK Government remains fully committed to the Belfast Agreement, its principles and institutions.

Clearly, there are immediate challenges. It is now a year since Northern Ireland has had an effective, functioning power-sharing administration, and

forming a Northern Ireland Executive, to deliver for the benefit of all, is my top priority. I believe a devolved government in Belfast is best placed to address these issues and take the key decisions which affect people's day to day lives – whether these relate to the economy, public services or issues of policing and justice.

We must also continue the work to deliver a Brexit that recognises Northern Ireland's unique circumstances and avoids a hard border on the island of Ireland while maintaining the economic and constitutional integrity of the United Kingdom.

Alongside these issues, I am conscious of the need to establish a stronger economy and a shared society, to address the legacy of the past and to keep people safe and secure.

In the coming days, I look forward to meeting many different people, parties and other groups as I take on this hugely important and exciting role in the Prime Minister's Government.

---

## **News story: Government renews focus on housing with Ministry of Housing, Communities and Local Government**

Following the appointment of Rt Hon. Sajid Javid MP as the Secretary of State for Housing, Communities and Local Government, the department will be renamed as the Ministry of Housing, Communities and Local Government (MHCLG).

Housing Secretary Sajid Javid said:

Building the homes our country needs is an absolute priority for this government and so I'm delighted the Prime Minister has asked me to serve in this role. The name change for the department reflects this government's renewed focus to deliver more homes and build strong communities across England.

Further ministerial appointments will be confirmed in due course by the Prime Minister.
