

# Corporate report: Regulating for people, the environment and growth

*Updated:* Added the 2017 report.

Annual reports on the Environment Agency's regulation work. The reports provide information and statistics about the:

- emissions to air from the businesses we regulate
- number of serious pollution incidents and sectors responsible
- compliance of businesses with their environmental permits
- reduction in costs for businesses we regulate
- enforcement action we take when businesses do not comply

The Environment Agency applies the regulatory framework set by government. We work with businesses to make sure they operate in a way that avoids harming people or the environment, without imposing unnecessary administrative burdens on them.

## Corporate report: Environmental performance: sector strategies

*Updated:* Minor changes to the oil and gas sector strategy 2016 to 2020.

These 14 sector strategy reports give an overview of each sector's performance and annual emissions. They also list the Environment Agency's top environmental objectives for each sector to 2020.

See the [2016 datasets that support these strategies](#).

See the [2015 sector strategies](#).

## Corporate report: Regulating the waste industry: evidence summaries

There are reports for 2013 to 2015. Waste industry data for 2016 is included in the [2016 Regulating for people, the environment and growth summary](#).

These annual reports show facts and statistics about the number of permits the Environment Agency issued to the waste industry. They report the amount of waste that was recycled, reused or sent to landfill. The reports also give details of environmental consequences including:

- numbers of serious pollution incidents relating to the waste industry
- the waste industry's environmental performance
- facts about illegal waste

The way society manages waste has changed radically over the last 20 years. More waste is recycled and reused than ever before. This has brought significant environmental benefits, but the many new and innovative waste treatments now available may cause increased risk to the environment if not properly managed. The reports explain how the Environment Agency is adapting its regulatory approach to manage these risks.

See the [2015 datasets that support the 2015 report](#).

See the [2013 datasets that support the 2013 report](#).

---

## Corporate report: Pollution incidents: evidence summaries

These reports are for 2013 to 2015. Pollution incidents data for 2016 is included in the [2016 Regulating for people, the environment and growth summary](#).

These annual reports show serious pollution incidents in England. They provide facts and statistics about:

- the number of serious pollution incidents
- impacts of pollution incidents and their sources
- sectors responsible

- action the Environment Agency takes to reduce pollution incidents
- enforcement action the Environment Agency takes when pollution incidents happen

Serious pollution incidents can harm people and the environment as well as damage businesses. To cause or allow pollution is against the law. The Environment Agency provides advice and guidance on pollution prevention and also takes enforcement action if a pollution incident happens.

Also to be announced at the national ceremony will be the Top 100 Apprenticeship Employers list 2017, sponsored by Centrica. It features the most exceptional apprenticeship employers from all of the National Apprenticeship Awards employer categories and shows the breadth of employers offering fantastic apprenticeship opportunities.

Sue Husband, Director of the National Apprenticeship Service said:

Announcing award finalists means we are another step closer to the national final and finding out who has a truly bright future ahead of them. Successful finalists all have fantastic stories to tell and their apprenticeship journey – be it as apprentices, employers or those individuals who go above and beyond to champion apprenticeships – is something I personally look forward to finding out more about and to hear how apprenticeships have benefitted them.

I congratulate everyone who has been named a national finalist today and whatever the outcome on the night, each finalist deserves a huge pat on the back for committing to and delivering successful apprenticeships.

Best of luck to all finalists and thanks once again to our generous sponsors for supporting the 2017 awards.
