

Press release: Blackpool, Bradford and Lake District to benefit from £15 million Northern Cultural Regeneration Fund

Three major cultural projects across the North of England will receive a share of the £15 million Northern Cultural Regeneration Fund, Arts, Heritage and Tourism Minister Michael Ellis announced today.

The fund, which was created to build a lasting regional legacy from the Great Exhibition of the North, will support diverse projects in Blackpool, Bradford and the Lake District.

A total of £4 million will help transform the vacant former Bradford Odeon cinema into a 4,000 capacity live music, entertainment and events venue.

Nearly £3.3 million will enhance the visitor experience at cultural attractions across the Lake District, the UK's newest World Heritage Site.

A further £4 million will be used to create a museum in Blackpool that will celebrate the town's history as the UK's first mass seaside holiday resort.

Michael Ellis, Minister for Arts, Heritage and Tourism, said:

"These exciting projects will provide a true cultural legacy for people across the North that increases tourism, boosts local economies and creates jobs for the future. They reflect the diversity and unique identity of Blackpool, Bradford and the Lake District and will enable them to realise their exciting cultural ambitions."

Exchequer Secretary Robert Jenrick said:

"The UK has the most vibrant cultural scene and creative industry in the world today, but we want to ensure that reaches all parts of the country and that every young person has access to cultural experiences and opportunities. That's why we are investing these resources to ensure there is a lasting legacy for the upcoming Great Exhibition of the North, driving the region's economic and cultural success."

Northern Powerhouse Minister, Jake Berry, said:

"These multi-million pound cultural investments in Blackpool, Bradford and the Lake District represent a major economic and cultural boost for the Northern Powerhouse. From converting a vacant cinema into a state-of-the-art venue to improving access to the UK's newest World Heritage site, these investments will have a transformative effect, benefitting local communities by creating new jobs while increasing tourism from across the UK and further afield."

Eleven towns and cities from across the North of England bid for a share of the Northern Cultural Regeneration Fund, which encourages sustainable cultural and creative regeneration in the Northern Powerhouse and will benefit areas with historically low levels of cultural and creative investment.

As well as the three capital projects, a new fund providing access to finance for the cultural sector and creative industries in the North of England will be created.

Bradford Odeon – The 1930s twin domed cinema has been vacant since 2000. The redevelopment will be one of the biggest of its type in the country outside of London and will bring Bradford back on the national touring circuit. The venue, due to be run by NEC Group International, will aim to put on around 225 events to more than 270,000 people every year, creating 50 jobs in the city. The project is being led by a not-for-profit social enterprise, Bradford Live, assisted by Bradford Council.

Blackpool museum – Due to open in 2020, the museum will display artefacts, music and performances from within Blackpool and partners including the V&A, EMI Group Archive Trust and the British Music Hall Society. The museum – the biggest new museum development in the North West – is expected to attract almost 300,000 visitors a year and will be developed on the world-famous Golden Mile. It will aim to engage younger audiences in the history of Blackpool and further strengthen the town's tourism offer.

Lake District – £3.29 million will be invested in a project to strengthen the visitor experience at Windermere Jetty, Dove Cottage, the Wordsworth Museum and Abbot Hall Art Gallery and Museum. The money will be used to enhance the visitor experience at these attractions, increase accessibility and improve exhibition spaces. The regeneration project aims to attract nearly 150,000 additional visitors, create or maintain 150 permanent jobs and boost cultural tourism to the newly designated World Heritage Site.

The projects will build on the impact of the Great Exhibition of the North, which launches in Newcastle-Gateshead on June 22. The event is set to be the biggest in England this year and will showcase the best of Northern art, culture and innovation.

Notes to editors: The bids were coordinated by Local Enterprise Partnerships in Cheshire and Warrington, Cumbria, Greater Manchester, Humber, Lancashire, Leeds City Region, Liverpool City Region, North East, Sheffield City Region, Tees Valley, and York, North Yorkshire and East Riding.

News story: Innovate UK: first Council announced

The Innovate UK stand at Innovate 2017 – future, growth, global.

Innovate UK has announced the members of its first Council, who will advise and make decisions on Innovate UK's operations as it becomes part of [UK Research and Innovation](#).

With a specific focus on innovation, they will:

- provide leadership in their field of activity, including prioritising budgets within their delegated remits and developing delivery plans
- ensure a pipeline of skilled specialists and other roles that are essential to the sustainability of the UK's research and innovation capacity
- engage with the innovation and business community to develop ideas, raise awareness and share strategic outputs
- encourage and facilitate collaborative work across the 9 Councils to build strategic relationships

Range of expertise and experience

The members are:

- Sir Harpal Kumar, who will serve as Senior Independent Member through his role as UK Research and Innovation's Innovation Champion and work closely with the board
- Dr Arnab Basu MBE, Chief Executive, [Kromek Group plc](#)
- Baroness Brown of Cambridge DBE FREng FRS (Julia King)
- Professor Juliet Davenport OBE, Chief Executive, [Good Energy](#)
- Dr John Fingleton, Chief Executive, [Fingleton Associates](#)
- Priya Guha, Ecosystem General Manager, [RocketSpace UK](#)
- Dr Elaine Jones, Vice President, [Pfizer Ventures](#)
- Professor John Latham, Vice-Chancellor of [Coventry University](#)
- Sir William Sargent, Chief Executive, [Framestore](#)
- Stephen Welton, Chief Executive, [Business Growth Fund](#)

Innovate UK's funding is awarded to businesses of different sizes across a wide range of industries, and the Council's membership reflects that.

They have a range of expertise and experience in research and innovation across business, entrepreneurship, investment, technology development, economics and business impact evaluation, with different characteristics and professional backgrounds.

Champions of business-led innovation

Chief Executive of Innovate UK, Dr Ruth McKernan said:

As UK Research and Innovation begins its work, the Council of Innovate UK will have a vital role to play. They will champion the vital role that business-led innovation and the commercialisation of research play in driving economic growth and increasing productivity.

The important duties of the Council means that we need people who are up to the task. It's fantastic that the role has attracted people of such high calibre from a diverse range of backgrounds. We look forward to them taking on the task with enthusiasm and passion.

The Council replaces Innovate UK's governing board. Members will serve between one and 3 years.

[National Statistics: Monthly sea fisheries statistics January 2018](#)

The monthly landings statistics will be released at 9.30am on the 4th Friday of each month, or the next working day if this is a bank holiday.

[Official Statistics: Point of first release for statistics on abundance of UK butterflies \(2018 publication; includes data up to 2017\)](#)

Trends of UK butterfly species are based on results of the UK Butterfly Monitoring Scheme (UKBMS), presented at UK level, and at country level where there are sufficient data. The UKBMS helps the UK to meet its obligations under the European Habitats Directive (for Marsh Fritillary and Large Blue), and to report on, implement or deliver country biodiversity strategies and

biodiversity indicators.

The UK Butterfly Monitoring Scheme is organized and funded by Butterfly Conservation, the Centre for Ecology and Hydrology, British Trust for Ornithology, and the Joint Nature Conservation Committee. The UKBMS is indebted to all volunteers who contribute data to the scheme.

[Press release: UK's 'first ever' successful prosecution for false company information](#)

Kevin Brewer, a businessman, incorporated John Vincent Cable Services Ltd in 2013, making the former Business Secretary Vince Cable MP a director and shareholder without his knowledge. The company was dissolved and taken off the company register after Companies House took action.

Brewer, 65, then formed another company in 2016, Cleverly Clogs Ltd, making Baroness Neville-Rolfe – the Minister with responsibility for Companies House – James Cleverly MP and an imaginary Israeli national, Ibrahim Aman, all directors and shareholders without their knowledge. Companies House dissolved the company and took it off the company register.

Brewer, from Ullenhall in Warwickshire, was ordered to pay over £12,000 after he pleaded guilty to filing false information on the UK's company register at a hearing in Redditch Magistrates' Court last Thursday 15 March.

This is thought to be the first time a company director has been successfully prosecuted for falsifying company information under laws which came into force in 2009.

A Companies House spokesperson said:

Deliberately filing false information on the register is a serious offence and people who have been found to have knowingly done this can face prosecution.

Business Minister Andrew Griffiths said:

This prosecution – the first of its kind in the UK – shows the Government will come down hard on people who knowingly break the law and file false information on the company register.

Companies House works hard to protect and continually upgrade the

company register, identifying potentially criminal activities and working closely with law enforcement bodies to help bring those perpetrators to justice.

The company register is operated by Companies House and contains information about company addresses, accounts, and those who own and run companies. There are nearly 4 million companies on the UK's company register and the vast majority of these companies use the register lawfully.

- Brewer pleaded guilty to breaking section 1112 of the Companies Act 2006, which sets out the criminal offence of providing false information on the company register.
- Brewer was fined £1,602 and ordered to pay costs of £10,462.50 and a Victim Surcharge of £160.
