[Statutory guidance: Environmental Permitting Charging Scheme](#)

Updated: This page has been updated by the Environment Agency as a result of the strategic review of charges. The review was consulted on between November 2017 and January 2018. The changes commence from April 2018.

This document covers charges for activities that require a permit or registered exemption from the Environment Agency under Environmental Permitting (England and Wales) Regulations 2016.

The charging scheme covers these activities:

- flood risk activities
- installations
- waste operations
- mining waste operations
- mobile plant
- land spreading
- water discharge activities
- groundwater activities
- radioactive substances activities
- exempt waste operations

See the [Environmental permitting charges guidance](#) for more information about these charges.

[News story: CMA clears GVC / Ladbrokes merger](#)

GVC Holdings plc (GVC) and Ladbrokes Coral Group plc (Ladbrokes) both supply online betting and gaming services.

The Competition and Markets Authority (CMA) has been carrying out an investigation into the proposed merger. This has found that the merger does not give rise to competition concerns.

GVC has a small presence in the UK and only offers services online. The CMA has found that GVC and Ladbrokes are not close rivals and there are many other providers of betting and gaming services online.

The CMA looked closely at betting services for individual sports and individual games but found that, in all cases, there will be enough rivals to the merged entity to prevent price increases or a reduced quality of service as a result of the merger.

The merger will therefore not be referred for an in-depth investigation.

Information relating to this investigation can be found on the [case page](#).
