

# [News story: Nine beaches designated as bathing waters on the south coast](#)

Beachgoers can take to the seas this summer at nine beaches newly designated as bathing waters on the south coast.

Eight beaches in Cornwall, including Booby's Bay and South Fistral, and one in Bournemouth – Manor Steps received their designation today, bringing the total number of designated bathing waters across England to 423.

At designated bathing waters, the Environment Agency help protect the health of swimmers, surfers and other visitors, by testing the water for levels of bacteria and publishing the results online. Across England there are currently 270 bathing waters with "excellent" water quality.

Environment Minister Thérèse Coffey said:

This is great news for anyone who enjoys a trip to the seaside. Britain's beaches are visited around 150 million times each year and the water at these nine beaches, along with more than 400 bathing waters around England, will be tested by the Environment Agency to help protect the health of visitors.

I would encourage everyone to use the online 'Bathing Water Data Explorer' to check the water quality at designated bathing spots before heading out for a dip in the sea.

The eight beaches to be designated in Cornwall will take the number of designated beaches in the county to 89. The newly designated bathing waters in Cornwall are:

- South Fistral beach in Newquay
- Booby's Bay near Trevoze Head
- Mexico Towan, Upton Towan and Godrevy, all situated on a long stretch of dunes in St Ives Bay
- Northcott Mouth beach to the north of Bude
- Gwynver Beach which forms part Whitesand Bay
- Tregonhawke in Whitsand Bay

In Bournemouth, Manor Steps Beach, part of the 15 kilometre coastline of Poole Bay on the Dorset coast, has also been designated as a bathing water.

Beachgoers can find a list of designated bathing waters around the UK and their water quality ratings on the [Bathing Water Data Explorer](#).

## **Open consultation: Proposed catch limits for April 2018**

The Marine Management Organisation (MMO) sets monthly catch limits for quota species to ensure the UK stays within the overall limit set by the EU. These limits apply to all under 10 meter vessels and the over 10 meter vessels that are not in a co-operative (Producer Organisation).

Please contact the MMO if you have any comment to make about the suggested catch limits which will be put into force on 1 April 2018.

Comments to be received no later than 11pm on Sunday 25 March 2018.

Email [FMTConsultations@marinemanagement.org.uk](mailto:FMTConsultations@marinemanagement.org.uk)

Telephone 0208 0 269 097

The MMO will regularly consult industry on monthly or other catch limits and will, wherever possible, ensure that any representations are taken into account when setting such limits. The MMO reserve the right to alter catch limits and / or close fisheries without prior notice or consultation in the event that such actions are necessary and expedient for the regulation of sea fishing.

## **News story: UK aid provides healthcare and education to Palestinian refugees**

The UK is supporting the UN Relief and Works Agency for Palestinian Refugees (UNRWA) to help educate 500,000 children and provide health services for 3 million Palestinian refugees, including those affected by the brutal conflict in Syria.

Speaking at the Extraordinary Ministerial Conference on UNRWA in Rome today (Thursday 15 March), Middle East Minister Alistair Burt highlighted the UK's continuing commitment to supporting Palestinian refugees and called on other countries to do more to alleviate some of the current pressures the agency is facing. He welcomed reform efforts to date and encouraged UNRWA to continue the pace of cost-efficiency reform.

Mr. Burt confirmed that the UK will deliver its next round of financial support earlier than originally planned, to help meet the growing needs of Palestinian refugees across the region.

Minister Burt said:

The UK is unequivocally committed to supporting vulnerable Palestinian refugees by assisting in the provision of education and healthcare across the region which is a key part of our resolve to promote a two-state solution. UNRWA plays a unique and critical role in supporting regional stability, and it's absolutely right that Global Britain supports the sustainability of its services.

Today I'm calling on others to follow our lead to make sure that UNRWA's humanitarian and stabilising role continues uninterrupted. This is not just important for those Palestinians in need of aid, but also to maintain stability across the region which is in all of our interests.

### Notes to Editors

- Over the course of the 2017/2018 financial year, the UK has provided around £50 million to UNRWA to support the agency's delivery of food, education and healthcare to vulnerable Palestinians across the Middle East. This makes us one of the top five donors.
- The UK will provide at least £28 million to UNRWA next financial year, as previously outlined in our multi-year commitment to 2021.

## [Press release: Anglers reminded close season runs from 15 March to 15 June](#)

No fishing for coarse fish in rivers from 15 March to 15 June

The Environment Agency is reminding anglers the 'close season' for coarse fish in rivers comes into effect today (Thursday 15 March) and runs until 15 June. The close season prevents fishing for coarse fish, like barbel and chub, for 3 months to give the fish a chance to breed. The close season applies to all rivers, streams and drains in England but does not apply to most still-waters and canals.

During the close season Environment Agency enforcement offices along with support from the Angling Trusts Voluntary Water Bailiffs will be out on rivers and streams making sure people are observing the close season. They will also be checking lakes and ponds to make sure people who are fishing have a valid rod licence. Anyone fishing without a fishing licence can be expected to be prosecuted.

Kevin Austin, Deputy Director, Agriculture, Fisheries and the Natural Environment, said:

Our job is to protect fish stocks and improve fisheries. This includes rescuing fish in distress, improving habitat and restocking rivers with 450,000 fish a year. The majority of anglers, who fish legally, rightly demand that we take action to catch offenders.

Our enforcement officers, supported by Angling Trust voluntary bailiffs, will be targeting illegal fishing. We urge anyone to report illegal fishing as quickly as possible by calling our incident hotline on 0800 80 70 60.

Last year the Environment Agency Enforcement Officers ran 670 close season patrols, reporting 122 anglers for illegally fishing in the close season.

Coarse fishing is still allowed on most still waters and canals, depending on fishery owner agreement, though a valid fishing licence is still required. You can check which still waters and canals still have a close season in operation by checking the byelaws which apply in your area at <https://www.gov.uk/government/collections/local-fishing-byelaws>. We will be finalising a review of the close season on rivers during 2018. Any changes that arise from this review will be implemented in 2019.

Anyone who wants to go fishing needs to buy a fishing licence. A full annual licence costs £30 (short term and some concessionary licences are also available) and are available online at [www.gov.uk/get-a-fishing-licence](http://www.gov.uk/get-a-fishing-licence).
