

[Press release: Environment Agency discovers 6 illegal waste sites in one day in Bristol, Somerset and Wiltshire](#)

Over the last 12 months the Environment Agency has seen an increase in illegal waste activity across Bristol, Dorset, Somerset and Wiltshire.

The first of these events took place on Tuesday 21 November 2017. Environment Officers visited 15 locations in the Bristol, Dorset, Somerset and Wiltshire area. They confirmed 6 illegal waste sites and found a number of unauthorised waste disposal activities, including waste being burnt.

Tackling waste crime is a top priority for the Environment Agency. Waste stored or disposed of without the proper environmental controls can have a huge impact on the environment, polluting watercourses, land and underground aquifers, and in some cases contributing to flooding. It is often an eyesore that attracts further dumping, while creating issues for neighbours such as smells and pests. The Environment Agency is determined to make life hard for criminals and to support legitimate businesses by disrupting the criminal element and taking tough enforcement action.

Andy Hicklin, Environment Agency Area Environment Manager for Wessex area, said:

Waste crime is a blight on communities and the environment and undermines legitimate business. Acting on reports from members of the public, days of action are just the first step in tackling waste crime. We will work with our partners in local authorities and use all of the tools at our disposal to disrupt, prevent and stop illegal waste activity.

The Environment Agency is asking members of the public to be vigilant; to contact them with information on anything suspicious. Illegal treatment and disposal of waste is a crime that blights lives and communities and damages the environment. Individuals involved in this type of illegal activity can be hostile and we would urge members of the public to avoid any direct contact with the culprits.

If you see or suspect illegal waste activities, report it anonymously to [Crimestoppers](#) or call 0800 555 111 or via the Environment Agency incident hotline on 0800 80 70 60.

[Press release: Preparing sirens for winter](#)

Four sirens, located approximately 250 metres apart in Chiswell, will be activated on Thursday (30 November 2017) at 11am, 2pm and 5pm, weather permitting. Local residents are being informed in advance via a leaflet drop and door-knocking exercise.

Rachel Burden, Wessex Flood and Coast Risk Manager at the Environment Agency, said:

Regular siren testing is an essential part of our forward planning, not only to ensure we are incident ready, but also to make sure our community flood warning and informing measures are effective.

If severe storms hit Portland, the sirens will play a crucial part in alerting local residents to imminent danger and potential evacuation. Ultimately, these sirens could help save lives.

The Chiswell area of Portland is classed as a high risk flood area because of the potential for strong south westerly winds, high tides in Lyme Bay and the close proximity of properties to the sea.

Rachel added:

Chiswell was badly affected by the floods in 2013/2014. It is a vulnerable area and can take a heavy pounding from the tides when the south westerly wind picks up. Although good flood protection measures are in place, we can never fully defend against the worst that Mother Nature can throw at us.

The sirens, which are tested twice a year, are extremely loud so that they can be heard above the noise of crashing waves during a storm. These modern sirens were installed in 2010 and replaced older Second World War equipment. An additional siren was put in during 2015 in order to fill a 'quiet spot' which was identified during the storms of the previous winter.

The testing will involve remote activation from our Blandford incident room, from the coastguard's hut and from the individual sirens. Representatives from the Environment Agency will be on hand to assist.

The day supports the annual Environment Agency [Flood Action Campaign](#).

[News story: Civil news: change to telephone number for Recovery Services](#)

You should use 0203 8144 366 if you wish to contact Recovery Services about the repayment of legal aid costs.

The new telephone number for Recovery Services is 0203 8144 366.

Callers to the new number will have the same options as before to have their call redirected to the right team for their enquiry.

Anyone calling the old number of 020 3334 6373 will hear a recorded message from 28 November 2017 asking them to redial using 0203 8144 366.

We will give notice before the recorded message is removed and the old number taken out of service.
