

[Press release: Smoother A66 journeys in £800,000 resurfacing project](#)

Drivers are to benefit from smoother journeys along a 1½ mile section of the A66 between North Stainmore and Brough in Cumbria – thanks to an £800,000 Highways England resurfacing project.

The overnight work to resurface the westbound carriageway between Hardhills and Augill junctions, will start on Monday (23 October) and is scheduled to take about a month.

Highways England project manager Nichola Capstick said:

We'll be partially reconstructing sections of the foundation of the road and then resurfacing both lanes of the westbound carriageway. Studs and road markings will also be renewed.

While most of the work will be done using single lane closures we will need to close the westbound carriageway overnight at weekends to do the reconstruction work safely. Clearly-signed diversions will be in place.

Drivers are being advised that full westbound carriageway closures will be in place on Friday, Saturday and Sunday nights between 8pm and 6am each night otherwise single lane closures will be used with a 40mph speed limit operating around the clock.

When the westbound carriageway is closed drivers will need to use the A1 and A69 to get to the M6.

General enquiries

Members of the public should contact the Highways England customer contact centre on 0300 123 5000.

Media enquiries

Journalists should contact the Highways England press office on 0844 693 1448 and use the menu to speak to the most appropriate press officer.

News story: CT Policing supports new awards

Counter Terrorism Policing is supporting the inaugural Counter Terrorism Awards, which will take place next Spring.

The competition is designed to recognise the efforts of both public and private sector organisations in helping tackle terrorism and keep the public safe.

There are a number of categories which will focus on innovation and collaborative working. NaCTS0 is keen to encourage this work as part of its remit to promote and develop the best possible protective security arrangements for organisations operating in the UK and overseas.

Officers from National Counter Terrorism policing will be entering projects of their own and assisting with the judging of other categories.

The award ceremony, organised by Counter Terror Business Magazine, will take place in London on 6 March 2018, to coincide with the Security and Counter Terror Expo staged at London's Olympia.

Anyone wanting more information should visit <http://awards.counterterrorbusiness.com/>.

Press release: Waste criminal pays up after Proceeds of Crime confiscation order

A man who ran an illegal waste site for 15 months has been forced to sell his home to pay towards the clean-up of land off the A38 at Eggington near Burton-on-Trent, Staffordshire.

The Environment Agency took confiscation proceedings under the Proceeds of Crime Act 2002 against Robert Murphy, 49, of Carver Road, Burton-on-Trent.

This follows a hearing in May 2015 at Stafford Crown Court when he was sentenced to 7 months imprisonment for operating a site he did not own or have an environmental permit for.

As part of his sentence, a Confiscation Order was made, requiring him to pay compensation of £20,793 to the landowner. The Environment Agency were also

awarded prosecution costs of £10,000. Murphy failed to make any payments.

He has since served an additional 12 month default sentence for his failure to comply with the Confiscation Order.

It was necessary for the Environment Agency to enforce compliance with the Order to recover compensation for the landowner who is faced with the costs of site clearance.

This required attendance at further enforcement hearings at Birmingham Magistrates Court. The Confiscation Order and order for costs has now been settled in full.

Between 3 January 2013 and 28 June 2014, Murphy used the land which belonged to a vulnerable and elderly couple to deposit, store and burn large quantities of mixed waste including metal, wood, electrical items and construction and demolition waste.

An Environment Agency officer involved in the case said:

This has been a long and involved case but it demonstrates that the Environment Agency is determined to tackle waste crime.

We hope this case serves as a message to those involved that we won't stop the fight against this blight, and that it acts as a deterrent against those who undermine legitimate businesses within the industry.

This is a serious issue diverting as much as £1 billion per annum from legitimate business and treasury. Since April 2011 the Environment Agency has invested £65.2 million in tackling it.

We urge any landowners, farmers, members of the public who find these sites to call us immediately on our 24-hour free incident hotline number 0800 80 70 60 or make an anonymous report to Crimestoppers on 0800 555 111.

[News story: Public bodies band together on new mobile voice and data procurement](#)

Crown Commercial Service (CCS) is harnessing the buying power of the public sector to reduce the cost to the public purse of purchasing mobile voice and data services.

[Expressions of interest](#) are now being taken from public sector organisations who want to take part in this latest bulk buying project.

The competition will be awarded in March 2018, with customer requirements being gathered between now and December.

The winning supplier will provide mobile voice and data services to the public sector at the most competitive price available – supporting the provision of efficient, effective public services that meet the needs of citizens.

The most recent exercises of its kind organised by CCS have saved customers, including local authorities and NHS trusts, on average 60% compared to their previous bills. The more organisations that take part, the greater the benefits will be.

Niall Quinn, Director of Technology Strategic Category said:

I'd encourage all public sector organisations who are looking to purchase mobile voice and data services to consider joining this aggregation. These projects have a great track record of utilising the buying power of the public sector to leverage the best deals from suppliers, ensuring that public bodies can deliver efficient public services.

Each participating customer will sign their own individual contract with the winning supplier.

How it works

The project is a National Further Competition completed under Lot 6 of CCS's Network Services framework. The chosen supplier will be one of those currently appointed to this Lot.

It will put in place a mobile voice and data services contract offering a high level of flexibility by:

- Establishing a zero line rental model for basic connections, avoiding customers incurring costs from unused lines
- Structuring services as 'bolt-ons' which can be added to the basic connection, enabling packages to be built to customer specifications
- 30-day terms for 'bolt-ons' to enable customers to change their mix of services during the contract term

If you are interested in getting involved please [get in touch](#) – simply tick the aggregation box and quote NFC81.

CCS's last competition [saved 17 customers over £2.7 million](#).

[News story: CMA reviews Rough gas storage facility undertakings](#)

Rough is a gas field in the North Sea used to store gas in the summer and deliver it in winter when the gas is needed to help meet high demand.

In June, Centrica plc (Centrica) [announced](#) that it intended to close the gas storage facility due to the physical deterioration of the facility which has come to the end of its design life. The closure can only happen if current undertakings required by the Competition and Markets Authority (CMA) have been removed. This led to Centrica and Centrica Storage Ltd (CSL) – the operator of Rough – requesting a review of its undertakings.

The undertakings, put in place in 2003 and most recently amended by the CMA in 2016, include a requirement to keep CSL, legally, financially and physically separate from its parent company Centrica, and to prevent CSL from discriminating in favour of Centrica or other users of Rough.

They also include an obligation for CSL to sell a specific amount of capacity before the start of each storage year, limiting the amount which can be supplied to Centrica and enabling Ofgem to vary the amount of capacity Centrica is required to offer for sale.

The CMA panel members who will act as decision-makers in the review are: [Martin Cave](#), [Jayne Scott](#), [Jon Stern](#) and [Anne Fletcher](#). The CMA anticipates that the review will be completed before the end of 2017.

Further details, including Centrica and CSL's request to remove the undertakings can be found on the [case page](#). An administrative timetable will be published shortly.
