

## Press release: Significant fine for water company following hazardous chemical leak

On 19 April 2018, at Derby Crown Court, sitting in Nottingham, Severn Trent Water Limited was fined £350,000, ordered to pay Environment Agency costs of £68,003, as well as a victim surcharge of £120.

An estimated 30,000 dead fish and 5km of damaged ecology along the River Amber led to proceedings brought against Severn Trent Water Limited following a pollution incident.

On 1 November 2015, the Environment Agency received reports of several hundred dead fish in the River Amber in Derbyshire and, following a search of the area, and discussions with Severn Trent Water employees, the source of the pollution was found to be a release of sodium hydroxide from the Ogston Water Treatment works, operated by Severn Trent Water, into the river.

Severn Trent Water identified that a leak within a chamber at the Treatment works had led to the contents becoming contaminated with sodium hydroxide, which was then washed through the road gully into the River Amber via an outfall pipe.

The pollution had a significant negative impact on the fish and invertebrate populations within the River Amber. The Environment Agency has been monitoring the natural recovery of the river ecology over the last two years. Monitoring has shown that whilst there has been some improvements, something resembling a full recovery is not expected until the summer of this year.

In passing sentence, His Honour Judge Smith found that:

It beggars belief that a company of the size and expertise of Severn Trent Water had no policy whatsoever in respect of potential incidents arising in connection with their dosing chamber, either at this treatment works or indeed at any others throughout the UK. To have no policy whatsoever when dangerous chemicals could have leaked out in any number of ways is highly negligent. The size and success of Severn Trent makes it even more astonishing.

In mitigation Severn Trent expressed regret and apologises for the incident. The company co-operated fully with the investigation and contributed £228,000 to the Derbyshire Wildlife Trust.

Speaking after the case, an Environment Agency officer involved with the investigation said:

This is a significant fine imposed on Severn Trent Water Limited for causing pollution. I hope it sends a strong message that it is far more cost effective to avoid these incidents, as we will continue to take companies and individuals to task where they ignore their responsibilities.

Pollution causes damage to the environment and river ecology, in this case sodium hydroxide with a concentration of 20% amounts to a hazardous chemical and the leak affected 5km of the River Amber and killed approximately 30,000 fish and damaged other wildlife.

We encourage anyone who sees suspected pollution to call our incident hotline 0800 90 80 70 so we can act to reduce damage, investigate and in serious cases take enforcement action.

## Press release: Royal Navy Ship HMS Albion to visit Indonesia 22-25 April 2018

The British Royal Navy ship HMS Albion will be docked at Tanjung Priok port in Jakarta for a three day visit, aimed to increase defence engagement with the Indonesian Armed Forces. During the visit, members of the ship crew will conduct bilateral talks with the Indonesian Navy, UK defence industry and visit a local orphanage.

British Ambassador Moazzam Malik, said:

We have a growing defence relationship with Indonesia that supports our joint security interests and promotes prosperity. The deployment of HMS Albion in Indonesia provides an opportunity to support our partners in delivering maritime security in the region. Like Indonesia, the UK has a strong maritime history. We share a naval trading heritage. We will both remain maritime nations. It is in both of our interests to enjoy secure, accessible and sustainable maritime domains.

Captain Tim Neild, HMS Albion's Commanding Officer, said:

HMS Albion is a very capable warship, manned by a crew of highly trained and hugely professional sailors and Royal Marines and we are greatly looking forward to visiting Jakarta to help strengthen

the bonds between the UK and Indonesia. The presence of the Royal Navy's flagship in Asia-Pacific demonstrates that the UK is ready to work with our friends and allies to promote peace, security and prosperity throughout this vital region.

#### Notes to Editors

1. HMS Albion is a Landing Platform Dock – a type of amphibious operations vessel with a small force of embarked Royal Marines.
2. HMS Albion will be visiting Jakarta at the same time as the French Navy ship FS LHD Dixmude and Frigate Surcouf
3. Media are invited to attend the welcome ceremony and tour of HMS Albion at Tanjung Priok port on Sunday, 22 April at 1100hrs (JICT 2, Dermaga 203 Kaluku)
4. Crew of HMS Albion will also be visiting Nuruz Zahroh orphanage for social activities on Sunday, 22 April at 1330hrs. Logistics for media will be provided.
5. For further information please contact Embassy's press officer Raras Tulandaru at [raras.tulandaru@fco.gov.uk](mailto:raras.tulandaru@fco.gov.uk)
