A new Migration policy

Leaving the EU will give us the freedom to decide who we should welcome into our country

Many people who voted for Leave, and both government and Opposition are keen that the UK should be open to talent,

Welcoming to entrepreneurs and investors,

Enthusiastic about extending academic networks through shared scholarship and exchange

And generous to those fleeing danger and intolerance

Many also feel we do need to impose some limits on unrestricted migration into low paid jobs or onto benefits

We want those who join us to enjoy good housing and decent living standards

That requires us to expand our numbers at a sustainable pace

We also want a migration system which is fair between the EU and the rest of the world
