

## Getting things done – Richmond Terrace #dundeewestend

Residents have complained to me about the state of the roadway in Richmond Terrace, including potholes.

I contacted the council's Roads Maintenance Partnership about this and have now been advised as follows :

**"The Road Maintenance Partnership inspector has carried out an inspection of this area and has raised orders for pothole repairs to be done with a timescale for repair of approximately one month or sooner."**

## Restoring our fish and farms

Once we leave the EU we can take back control of our fishery.

There have been many EU policies damaging to jobs and incomes for the UK

But none more consistently unhelpful than the Common Fishing Policy

We have been changed from a country with a rich fishery and a strong net exporter of fish

Into a country with a badly damaged fishery lamely importing our own fish from foreign interests that have taken it

A UK designed policy can do better at conserving our stocks whilst at the same time delivering more fish through UK boats to meet our needs as consumers

The long period of forcing discards of many dead fish at sea has pillaged our fishery in a bad cause.

If a UK fishing policy requires fishermen to land everything they catch we will catch less and eat more, a win win for the industry, the country and the fish.

That too will boost our economy.

Out of the EU we can restore our farms

We have moved from 95% self sufficiency in temperate products to under 70%

Our local supermarkets now are full of Danish bacon, Dutch salad stuffs, flowers and vegetables, Spanish fruit and French dairy products

UK consumers have to pay higher prices than world prices for things we cannot grow for ourselves.

Common EU policies on beef and milk and much else have proved damaging to UK farmers.

A UK based policy can help farmers cut the food miles and gain a larger share of our domestic market

A growth in the UK policy will also boost our economy.

Our membership of the EU confronted us in its early days with the abolition of tariff walls which had protected some of our industry

Whilst leaving up barriers against services where we had a competitive edge

Predictably we slumped into large and permanent deficit in our trade with the rest of the EU.

In the first two decades of our membership the UK lost large amounts of our industrial capacity

German industry proved to be more competitive and we turned to huge imports as we saw unemployment in our manufacturing heartlands mount

Out of the EU we can manage our trade more effectively.

## [Vince Cable's letter to universities minister Sam Gyimah](#)

University lectures have started 14 days of strikes due to drastic changes to their pensions. They can expect to be left around £10,000 a year worse off in retirement as a result. The government must move to underwrite the Universities Superannuation Scheme, providing lectures and academic staff with guarantees that their pensions will be safe.
