

Changes to MOT and other vehicle tests

Date published: 04 April 2019

From 20 May, there will be some changes to vehicle testing. These deal with the engine management system warning light on all vehicles, and vehicles built on a goods vehicle chassis.

Engine management system warning light

Vehicles will fail the test if their engine management system warning light isn't working, or if the light shows a fault.

Vehicles built on a goods vehicle chassis

Vehicles built on a goods vehicle chassis that previously didn't have to get tested will now have to pass a goods vehicle test annually.

These vehicles include:

- mobile cranes
- electric goods vehicles
- vehicles with special equipment fitted (including those equipped for medical, dental, veterinary, health, educational, clerical and display purposes)
- tower wagons
- breakdown vehicles
- road construction vehicles (not road rollers)
- some trailers designed for producing asphalt
- some mobile engineering plant
- tractor units pulling exempt trailers
