

Consultation outcome: Navigation charges consultation 2018/19

We are consulting through our 4 national and local waterway user advisory committees.

The advisory committees are:

- National Navigation Users Forum (NNUF)
- Thames Navigation Users Forum (TNUF)
- Anglian Waterways Group (AWG)
- Medway River Users Association (MRUA)

We would like to know if, your organisation, as well as the members you represent:

- support the Environment Agency's need to increase boat registration charges
- support the level of increase proposed
- do not support the level of increase proposed, what level you would support
- we do not increase the charges, what part of the service you would be prepared to see reduce or stop
