

Covid-19 Statement

Welters Organisation Worldwide (WOW)

As designers,
manufacturers and installers of systems and products, WOW have embraced the national and global need resultant upon the pandemic and we have increased our
production capability to ensure, wherever possible, that the requirements of existing and emerging customers can be accommodated.

The ever-changing
variation to guideline policies, affecting local and international changes and
enforcements, ensure that all policies, costs and charges will vary and that we
cannot, under any circumstances, do other than submit information as being within our best and reasonable knowledge.

The relationship
between our clients and ourselves is of the utmost importance and is an essential part of our customer service.
We have no alternative but to work as best as we are able, and understand to be, within the operational guidelines that are imposed.

Your assistance is
therefore paramount to our ability to serve you in the way in which we are sure
you would wish.

Many thanks for your
understanding during these difficult times for all of us.
