

COVID-19 Vaccination Programme statistics

The COVID-19 Vaccination Programme has been implemented for 123 days since February 26, 2021.

So far, about 3 612 700 doses of vaccines have been administered under the Vaccination Programme. Details are as follows:

	Number of persons receiving Sinovac vaccine	Number of persons receiving BioNTech vaccine	Total number of doses
First vaccine dose	942 800	1 236 700	2 179 500
Second vaccine dose	582 600	850 600	1 433 200

* The numbers are rounded to the nearest hundred.

In the 24 hours ending at 8pm today (June 28), about 51 300 persons have received vaccination and about 34 400 new vaccination bookings have been made online. Details are as follows:

	Sinovac vaccine	BioNTech vaccine
Number of persons receiving first dose	12 000	17 200
Number of persons receiving second dose	9 000	13 200
Overall percentage of persons receiving vaccines at Community Vaccination Centres (CVCs)	N.A.	N.A.
Number of online bookings for receiving first and second vaccine doses	7 200	27 200

* The numbers are rounded to the nearest hundred.

Due to the suspension of vaccination service at CVCs when the Black Rainstorm Warning was in force this morning, the bookings of the affected persons have been rescheduled to a later date. For those whose booking was for taking the second dose vaccination, they might go to the CVC they selected at their original booking during opening hours for vaccination today. As such, an overall percentage of persons receiving vaccines at CVCs is not available today.

In the 24 hours ending at 0.00am today, there were seven cases of ambulance transfer to hospital from CVCs. They were sent to hospital after experiencing common side effects after vaccination and were in stable condition. Five of them were discharged, one person was admitted for observation and one person left hospital without seeking any consultation.
