Investment Plan now set to trigger €256.1 billion in investment after new projects approved

Following this week's meeting of the European Investment Bank (EIB) Board of Directors, the European Fund for Strategic Investments (EFSI) is now expected to trigger €256.1 billion in investments. The deals approved under the EFSI amount to €51.1 billion in financing and are located in all 28 Member States. Around 539,600 small and medium-sized companies (SMEs) are expected to benefit from improved access to finance. As of December, the top five countries ranked in order of investment triggered relative to GDP are Estonia, Greece, Bulgaria, Portugal and Spain. Also this week, Members of the European Parliament [voted to adopt](#) the Regulation to extend and enhance the EFSI, the central pillar of the Investment Plan for Europe. Vice-President Jyrki **Katainen**, responsible for Jobs, Growth, Investment and Competitiveness, said: *"EFSI-backed investments approved until now will increase EU GDP by 0.7% and create nearly 700,000 jobs by 2020. Now thanks to EFSI 2.0, even more jobs will be created. The Investment Plan is proving particularly successful when it comes to SME financing, with 539,000 small businesses already set to benefit from finance to grow their companies."* (For more information see the [Investment Plan website](#) or contact Johannes Bahrke – Tel.: +32 229 58615; Siobhán Millbright – Tel.: +32 229 57361)

Call for innovative projects: up to €100 million of EU funds made available to cities

Cities are invited to apply [here](#) as of today and until April 2018 to get EU funding under the 3rd ["Urban Innovative Actions"](#) call for projects. Up to €100 million from the European Regional Development Fund ([ERDF](#)) will help finance creative projects in the following areas: adaptation to climate change, air quality, housing and jobs and skills for the local economy, in line with the objectives of the [Urban Agenda for the EU](#). A [series of seminars](#) will be organised in the Member States to help applicants submit solid proposals and increase their chances of getting funding. Commissioner for Regional Policy Corina **Crețu** said: *"The Urban Innovative Actions give cities the funding they need to turn their good ideas into ground breaking projects that can inspire other cities in Europe. This 3rd call, focused on urban climate actions, is another brick to the wall of our commitments and achievements under the [Paris Agreement](#), just a few days after the [One Planet](#) summit in Paris."* (For more information: Johannes Bahrke – Tel.: +32 229 58615; Sophie Dupin de Saint-Cyr – Tel.: +32 229 56169)

€5 million prize for innovations that use blockchain technology for social good

The European Commission will award 5 prizes of €1 million each to social innovations as part of the Horizon Prize on “Blockchains for Social Good”. The prizes will be awarded to innovators that use [blockchain technology](#) to bring about positive social change, including for support of fair trade, allowing transparency in production processes, decentralising data governance and enhancing privacy, enabling accountability and contributing to financial inclusion. This prize encourages the development of scalable, efficient and effective solutions using Distributed Ledger Technology (DLT), the ground-breaking digital technology supporting decentralised methods of consensus reaching or transactions. The official launch is taking place today in Turin, organized by the city of Turin and innovation foundation Nesta Italia. The prize is the third of six European Innovation Council (EIC) Horizon Prizes and funded under [Horizon 2020](#), the EU’s research and innovation programme. Detailed rules of contest will be available in February 2018, and the deadline for applications is 25 June 2019 in order to allow applicants to demonstrate the viability of their ideas in practice. More information is on the [prize page](#) and the [EIC pilot website](#). Combatting illicit trade in tobacco products: Commission adopts EU-wide track and trace system

Today, Commissioner for Health and Food Safety Vytenis **Andriukaitis** welcomed the adoption of a set of legal acts aimed at combatting illicit trade in tobacco products: *“Today the EU has taken a big step forward in combatting the illicit trade in tobacco products. The new EU-wide track and trace system adopted today will ensure that tobacco products in the EU are easily traceable with a [unique identifier](#) for each product. In addition, we are also making sure that tobacco products meet specific security requirements, with at least five types of authentication elements required per packet. The track and trace system and the security requirements should be in place by 20 May 2019 for cigarettes and roll-your-own tobacco and by 20 May 2024 for all other tobacco products (such as cigars, cigarillos and smokeless tobacco products).”* Full [statement](#) and [Q&A](#) are available online. Mergers: Commission clears acquisition of sole control over CEPSA Gas by CEPSA

The European Commission has approved, under the EU Merger Regulation, the proposed acquisition of sole control over CEPSA Gas Comercializadora, S.A. (“CEPSA Gas”) by Compañía Española de Petróleos, S.A.U. (“CEPSA”), both of Spain. CEPSA Gas specialises in the wholesale and retail supply of natural gas to both large industrial customers and small and medium enterprises. CEPSA covers a wide range of activities from oil production and exploration activities to oil refining, and the supply of gas and fuels. It is also active in the production of petrochemicals and other oil-derivative products. The Commission concluded that the proposed transaction would raise no

competition concerns because CEPSA already had joint control over CEPSA Gas together with Total S.A. before the transaction. The transaction was examined under the simplified merger review procedure. More information is available on the Commission's [competition](#) website, in the public [case register](#) under the case number [M.8699](#). *(For more information: Lucía Caudet – Tel. +32 229 56182; Maria Sarantopoulou – Tel.: +32 229 13740)*

Mergers: Commission clears acquisition of Toshiba Memory Corporation by Bain Capital

The European Commission has approved, under the EU Merger Regulation, the acquisition of Toshiba Memory Corporation (“TMC”) of Japan, by Bain Capital Investors LLC (“Bain Capital”), of the US. TMC is a global manufacturer and supplier of NAND flash memory products and solid-state-drive memory products for use in a variety of consumer and enterprise applications. Bain Capital is an investment firm with activities in a variety of industries. The Commission concluded that the proposed acquisition would raise no competition concerns because Bain Capital's portfolio companies and TMC are not active on the same or related markets. The transaction was examined under the simplified merger review procedure. More information is available on the Commission's [competition](#) website, in the public [case register](#) under the case number [M.8680](#). *(For more information: Lucía Caudet – Tel. +32 229 56182; Maria Sarantopoulou – Tel.: +32 229 13740)*

La Commission approuve deux nouvelles appellations d'origine protégées pour des vins français et slovaques

La Commission européenne a approuvé la demande d'inscription de deux dénominations de vins au registre des appellations d'origine protégées (AOP), «La Clape» et «Skalický rubín». Les cépages pour les vins d'appellation [«La Clape»](#) sont cultivés sur le territoire du même nom situé dans le département de l'Aude dans le sud de la France. Les vins blancs «La Clape» présentent une robe jaune d'intensité moyenne, et une riche palette aromatique où se conjuguent le plus souvent fleurs blanches, fruits, notes balsamiques. Les vins rouges présentent une robe brillante à l'intensité profonde, le plus souvent de couleur pourpre. Cultivé et produit dans l'Ouest de la Slovaquie, dans la ville de Skalica et autour, le [«Skalický rubín»](#) est un vin rouge avec une couleur rouge rubis intense qui donne au vin son nom. Les cépages utilisés proviennent des variétés des variétés Frankovka modrá, Svätovavrinecké et Modrý Portugal. Ces deux nouvelles appellations vont rejoindre plus de 1750 appellations de vins déjà protégées dont la liste est disponible dans la base de données [e-bacchus](#).
