

# DH's Sai Kung Mona Fong Dental Clinic to undergo maintenance while disc quotas for general public session not affected

â€‹The Department of Health (DH) announced today (February 27) that the Sai Kung Mona Fong Dental Clinic (MFDC) will undergo maintenance for two months, from March 1 to April 30. During this period, the disc quotas offered in the general public session will not be affected.

One of the consultation rooms in the MFDC will be temporarily closed for maintenance. To maintain the original number of disc quotas (i.e. 21), the service hours of the general public session at the MFDC will be extended from Thursday morning to Thursday morning and afternoon sessions, providing 11 and 10 quotas, respectively.

During the maintenance period of the MFDC, members of the public can choose to receive emergency dental services at the MFDC, including prescriptions for pain relief, tooth extractions, or other emergencies such as an oral abscess, through the [Online Registration System for the Dental General Public Session](#) (ORDGP) as usual. Members of the public should note that the ORDGP will display two options for the MFDC, namely "Sai Kung Mona Fong Dental Clinic (AM)" and "Sai Kung Mona Fong Dental Clinic (PM)". A maximum of three options can be selected for each registration via the ORDGP.

The above arrangement is temporary, and the original service schedule of the general public session at the MFDC will resume on its first service day in May, i.e. May 8.

The service hours of the other 10 DH dental clinics with General Public Sessions will remain unchanged. Please refer to the DH's [website](#) for the addresses and service hours of the clinics.

Members of the public can also learn more about the online registration process on the DH's dedicated [website](#).
