

Guidance: Fruit Propagation Certification Scheme

How commercial plant growers can grow FPCS-certified stock, and find out the benefits of using it in commercial plantations.

Impact assessment: Risk management evaluations of substances proposed as persistent organic pollutants (POPs)

Requesting comments on draft risk management evaluations (covering Stockholm Convention Annex F) for 2 chemical substances.

Guidance: Slaughter Incentive Payment Scheme 2022 – for shifts worked before 18 February 2022

Food business operators can claim payment for slaughtering additional pigs.

Guidance: Avian influenza (bird flu): cases and disease control zones in England

Current and suspected cases of avian influenza (bird flu) in the UK and the disease control measures in place.

The Pesticides (Revocation) (EU Exit) Regulations 2022

This instrument revokes redundant retained direct EU legislation which forms part of the plant protection product (“PPP”) and maximum residue level (“MRL”) regulatory regimes, so that these regimes can continue to operate effectively following the end of the implementation period. The revocations concern direct EU legislation which came into force towards the end of the implementation period (and so was not addressed by the earlier EU Exit SIs described in paragraph 7.4) and which is given effect in Great Britain through transitional provisions in the earlier EU Exit SIs and the national statutory registers. As a result, the retained direct EU legislation to be revoked is no longer required.
