

The Pesticides (Revocation) (EU Exit) Regulations 2022

This instrument revokes redundant retained direct EU legislation which forms part of the plant protection product (“PPP”) and maximum residue level (“MRL”) regulatory regimes, so that these regimes can continue to operate effectively following the end of the implementation period. The revocations concern direct EU legislation which came into force towards the end of the implementation period (and so was not addressed by the earlier EU Exit SIs described in paragraph 7.4) and which is given effect in Great Britain through transitional provisions in the earlier EU Exit SIs and the national statutory registers. As a result, the retained direct EU legislation to be revoked is no longer required.

Guidance: Get your disinfectant approved by Defra

Find out about the process and costs to apply for Defra disinfectant approval.

Guidance: Avian influenza (bird flu) and Newcastle disease compartment scheme: approved flock farms and hatcheries

Find out which premises are approved to EU and GB enhanced standards in the compartmentalisation scheme and get their approval numbers.

Research: Avian influenza (bird flu) in Europe, Russia and in the UK

Preliminary and updated outbreak assessments for avian influenza (bird flu) in Europe, Russia and in the UK.

Press release: £25 million funding for high tech machinery on farms

Applications are open for the 'improving farm productivity' theme of the Farming Investment Fund.
