

Corporate report: Waste Metric Dashboard: March 2018

The National Waste Programme publishes a range of waste metrics to track progress and ensure that expected programme benefits are being delivered.

The metrics demonstrate:

- the successful diversion of waste away from disposal to the LLW Repository
- the optimal use of key national assets, such as the LLWR site and waste treatment facilities
- the safety and environmental performance of the National Programme

Notice: W12 0NN, UK Research & Innovation (UKRI): environmental permit application advertisement

The Environment Agency consults the public on certain applications for Radioactive Substances Activity. The arrangements are explained in its [Public Participation Statement](#)

These notices explain:

- what the application is about
- which Environment Agency office you can visit to see the application documents on the public register
- when you need to comment by

The Environment Agency will decide:

- whether to grant or refuse the application
- what conditions to include in the permit (if granted)

[News story: LLW Repository Ltd earns Gold award](#)

LLW Repository Ltd's (LLWR) Engineering, Design and Construction Framework (EDCF) with GRAHAM Construction has won a Gold award in a prestigious national scheme.

Delighted team members from both organisations were on hand at the Considerate Constructors Scheme (CCS) ceremony in Manchester to receive the honour, which recognises high standards in the construction sector.

It was only the second time the Framework had entered the scheme and it earned a bronze award last year. In addition to striking gold, a Most Considerate Site runner-up accolade was also awarded to the west Cumbrian facility.

"We are on a journey of continuous improvement, so to better last year's pleasing performance amid stiff competition was superb," said Cath Giel, LLWR's Head of Public Affairs.

"We received more points from our CCS monitor this year than last so we were hopeful of improving on a bronze, but to win gold was outstanding.

"High standards are set for the organisation and for individuals, so this recognition is another feather in our cap.

"We take our community responsibilities extremely seriously, and a lot of hard work went into our entry."

In the Framework's inaugural year in the scheme, the better of two scores awarded by a CCS monitor was 43 marks out of 50.

Two visits this time merited scores of 45 and 46 with maximum 10s scored in the 'Protecting the Environment' and 'Secure Everyone's Safety' categories.

The CCS monitor noted: "This project continues to be managed at the highest level, not only achieving an exceptional level in all five of the scheme's checklist sections, which in itself is an achievement, but also by being innovative."

[Press release: New figures reveal 1 in 11 anglers are junior anglers](#)

Fishing licence sales show a huge increase in popularity among children with 1 in 11 anglers being juniors according to new figures released by the Environment Agency today.

The introduction of free fishing licences for children in 2017 has led to a 53% increase with more than 79,000 junior licences issued last year.

The figures were welcomed by the agency in light of challenges in attracting juniors to the sport given the popularity of game consoles, TV and social media.

Kevin Austin, Head of Fisheries at the Environment Agency, said:

While today's figures are welcomed and encouraging, we mustn't rest on our laurels. Today's children are the anglers of tomorrow and it's important we attract them to the sport early. We're really pleased to see that a growing number of young people are taking up the offer of a free junior licence, helping them to enjoy the great outdoors and this great sport.

Children today have a wealth of technology at their fingertips, and coupled with the costs parents face, it's easy to see why fewer children are enjoying outdoor activities. Through our continued investment into fishing, our aim is to ensure the sport continues for generations to come.

From April, the age of free junior licences change from 12-16 to 13-16. Junior fishing licence work will continue to be supported by Environment Agency partners such as Angling Trust, Get Hooked on Fishing and National Fishing Month. Those under thirteen will not be required to purchase a licence.

All fishing licence income is used to fund work to protect and improve fish stocks and fisheries. The Environment Agency works in partnership with the Angling Trust, Get Hooked on Fishing and National Fishing Month to offer free fishing events and activities.

To find an event close to you take a look at get fishing. To buy a licence online visit: www.gov.uk/get-a-fishing-licence

Notes to editor

- Figures quoted are for England and Wales
- Juniors still need to get a licence in order to fish but the licence will be free at get a fishing licence.
- These changes have also been implemented across Wales. Natural Resources Wales is the lead.
