

Guidance: Recyclability assessment methodology: decision tree diagram

A decision tree illustrating the process for deciding the recyclability of materials under the recyclability assessment methodology (RAM), part of extended producer responsibility (EPR) for packaging

Guidance: Recyclability assessment methodology: materials and outputs

How to categorise and rate individual materials under the recyclability assessment methodology (RAM).

Recyclability assessment methodology: how to assess your packaging waste

An overview of the recyclability assessment methodology (RAM). Under extended producer responsibility for packaging, large producers must report the recyclability of some packaging materials

Guidance: Recyclability assessment methodology: background and definitions

Recyclability assessment methodology (RAM): how to classify your packaging and technical definitions.

Recyclability assessment methodology: supplementary guidance

Read additional information that clarifies the Recyclability Assessment Methodology (RAM) if you're an obligated producer of household packaging waste under Extended Producer Responsibility (EPR) for packaging.
