World news story: British Ambassador Visits Project for the Protection of the Mayan Biosphere Reserve

The Ambassador met with representatives of the National Forestry Institute (INAB), the National Council of Protected Areas (CONAP), the environmental police (DIPRONA), the Ministry of Agriculture (MAGA) and other local and international partners that are working with the UK Space Agency (UKSA) in implementing this new technology.

The project uses space technology such as remote sensors and the Global Navigation Satellite System (GNSS) to monitor Guatemala's forests from space through the use of an application installed in cell phones or tablets.

Deforestation, fires, extensive cattle ranching and ungovernability are some of the threats to the Mayan Biosphere Reserve (MBR), where the project will provide its first results. The programme seeks to gather evidence using information from space technology to help the authorities in the decision making process of forest administration and in the fight against illegal

exploitation of resources.

Among other benefits that this project will have, is the strengthening of human resources, the use of software and technological equipment, and technological innovation to fulfil the institutional functions of the sector. As a result it is expected this will provide greater transparency in the forestry sector and hence attract foreign investments.

Later, Ambassador Davidson travelled to the Wildlife Conservation and Rescue Association (ARCAS) to take a tour of its facilities and learn about some of the schemes used to protect the MBR. Among these is an Environmental Education Centre, which will receive funds from the project, to sensitize local and foreign students and visitors about the problems of the MBR.

The project FMAP (Forestry Management and Protection) is scheduled to last 3 years starting from December 2016 with an investment of some Q50 million that will also cover areas of Alta and Baja Verapaz.

To mark her visit to Petén, Ambassador Carolyn Davidson said:

The United Kingdom is very clear that climate change is a global threat, not only for issues of conservation and preservation of natural resources, but also as an element of impact on the national security of countries. We wish the project success.

[Guidance: Higher Tier manual for 1 January 2018 agreements: Countryside Stewardship](#)

Updated: Passed 10 July deadline for late revenue claims and amendments.

Use the manual to understand the rules and conditions that apply to Higher Tier agreements.

Use the options, supplements and capital items document:

- to understand the rules for each option, supplement and capital item
- for advice on carrying out options, supplements and capital items

Use the [Countryside Stewardship \(CS\) forms](#) to support your agreement.

The manual has been designed with portrait and landscape pages. To make sure these print correctly, select 'auto rotate' in your printer settings before

you print.

Overlap of CS options with Ecological Focus Areas (EFAs)

In 2018, you can overlap the following CS options with EFAs declared on your Basic Payment Scheme (BPS) 2018 application:

- [AB1 Nectar flower mix](#)
- [AB3 Beetle banks](#)
- [AB4 Skylark plots](#)
- [AB5 Nesting plots for lapwing and stone curlew](#)
- [AB6 Enhanced overwinter stubble](#)
- [AB8 Flower rich margins and plots](#)
- [AB9 Winter bird food](#)
- [AB11 Cultivated areas for arable plants](#)
- [AB15 Two year sown legume fallow](#)
- [AB16 Autumn sown bumblebird mix](#)
- [HS2 Take historic and archaeological features out of cultivation](#)
- [OP2 Organic wild bird seed mixture](#)
- [SW1 4 to 6 metre buffer strip on cultivated land](#)
- [SW3 In-field grass strips](#)
- [SW4 12 to 24 metre watercourse buffer strips on cultivated land](#)
- [SW6 Winter cover crops](#)
- [SW12 Making space for water](#)
- [WD3 Woodland edges on arable land](#)
- [WT2 Buffering in-field ponds and ditches on arable land](#)

Your CS options that share land with BPS claims (known as 'double funding') will receive a reduced payment rate. You can find the rate in the page for each listed option, under 'How much will be paid', and in the manual (section 3.3.1).

From 1 January 2019, you will not be able to overlap the 19 CS 'double funding' options with EFAs declared for BPS. You can place the options and EFAs in the same land parcel but they cannot overlap.

You can include hedges in both CS options and EFAs without payment deductions.

Revenue claims

The deadline for Natural England to receive late revenue claims and amendments was 10 July 2018. Natural England will not accept any further revenue claims in 2018.
