

National Statistics: Historical statistics notices on the incidence of tuberculosis (TB) in cattle in Great Britain, 2017

Updated: Revised Quarterly Statistical notice for 4th Quarter.

This publication gives previously published copies of the quarterly and monthly statistics publication on the incidence of tuberculosis (TB) in cattle for Great Britain in 2017. Each publication gives the figures that were available at that time. The figures are subject to revision each month as new information becomes available.

The latest publication and the accompanying data sets can be found [here](#)

Notice: S45 9NY, Falcon Waste Development Land Company Limited: environmental permit issued

The Environment Agency publish permits that they issue under the Industrial Emissions Directive (IED).

This decision includes the permit and decision document for:

- Operator name: Falcon Waste Development Land Company Limited
 - Installation name: Clay Cross Energy Recovery Facility
 - Permit number: EPR/HP3735AE/A001
-

Notice: NN10 9LU, Ancillary Components Limited: environmental permit issued

The Environment Agency publish permits that they issue under the Industrial Emissions Directive (IED).

This decision includes the permit and decision document for:

- Operator name: Ancillary Components Limited
- Installation name: Goosey Lodge
- Permit number: EPR/NP3338SZ/V005

Statistical data set: River Wear fish counts

Updated: Latest fish count data for the River Wear.

We aim to release this data once a month.

River Wear daily upstream fish counts

Ref: LIT 8801

PDF, 151KB, 3 pages

River Wear monthly upstream fish counts

Ref: LIT 8802

PDF, 199KB, 2 pages

Statistical data set: River Tees fish counts

Updated: Latest fish count data for the River Tees.

We aim to release this data once a month.

River Tees daily upstream fish counts

Ref: LIT 8805

PDF, 83.3KB, 1 page

River Tees monthly upstream fish counts

Ref: LIT 8806

PDF, 80.9KB, 1 page

The fish counter at the Tees Barrage only monitors the upstream migration of salmon and sea trout through the fish pass.

Additional routes exist through the:

- main barrage gates
- canoe slalom
- turbine fish pass
- navigation lock

To help fish migrate, the Environment Agency and the Canal and River Trust keep the main barrage gate open as much as possible. When it's open, more fish migrate through this gate than through the fish pass. This may explain the lower fish counts when the main barrage gate is open.
