

Guidance: Drainage and wastewater management plans: guiding principles for the water industry

The water industry is producing strategic drainage and wastewater plans to maintain, improve, and extend robust and resilient drainage and wastewater systems.

Policy paper: Storm overflows discharge reduction plan

The storm overflows discharge reduction plan sets stringent new targets to protect people and the environment. This will require water companies to deliver the largest infrastructure programme in water company history.

Consultation outcome: Storm overflows: reducing sewage discharges

Seeking views on the government's plan to reduce sewage discharges and remove harm from storm overflows.

Guidance: Apply for research support and partnerships

Working with academics and researchers is central to delivering the FCERM R&D programme. Find out how to apply for support for your research proposal.

Policy paper: Litter strategy for England: progress reports

These reports set out what progress has been made on the actions identified in the government's litter strategy published in 2017.
