

UK's overseas wildlife hotspots to benefit under new strategy

- For first time UK government and all our Overseas Territories unite behind a joint ambitious and actionable biodiversity strategy
-

Non-UK suppliers' data: tell us how you collected it for EEE placed on the UK market via online marketplaces

Document how you've collected your non-UK suppliers' household electrical and electronic equipment (EEE) data, known as your 'methodology'. Online marketplaces as defined in the amended waste EEE regulations must submit a methodology.
