

Prey depletion threatens health of marine mammals

The link between reductions in the numbers and quality of fish and squid and the health of marine mammals that feed upon them in parts of northern European waters has been highlighted in a new report.

Open consultation: Marine strategy part two: monitoring programmes

Seeking views on the updated marine monitoring programmes.

Open consultation: Forests: reducing deforestation in UK supply chains

Seeking views on a new law to prevent illegal deforestation.

Press release: World-leading new law to protect rainforests and clean up supply chains

Legislation would make it illegal for larger businesses to use products unless they comply with local laws to protect natural areas.
