

Engaging South Scotland's schools

The Scottish Funding Council (SFC) is working on a new project with SRUC to improve access to rural skills and entrepreneurship programmes.

Giant leap for salmon gill health

SRUC researchers have received funding to improve gill health and resilience among farmed Atlantic salmon – one of the industry's most significant challenges.

Mince under the microscope

An extensive scientific survey among Scottish supermarkets and butchers aims to determine the prevalence of bacteria such as "E. coli" and "Salmonella" in mince.

Reducing disaster risk for the poorest citizens in tomorrow's cities

Over 50 per cent of the world's population lives in cities. In low-to-middle income countries, more than two billion city dwellers face the threat of floods, earthquakes, landslides, volcanoes and other natural hazards.

Press release: Two men fined for

illegal fishing

Two men have been fined for fishing illegally at a North East pond following an investigation by the Environment Agency.
