

Press release: New multi-million pound flood scheme in Birmingham opened

The scheme, which cost £2.7million to construct, has been delivered as part of the Environment Agency's programme of £2.5bn investment into flood defences across the country. The scheme was made possible through a partnership with Birmingham City Council and St Andrew's Healthcare.

The flood defences include a 500m long embankment on the public open space next to Dogpool Lane bridge. By doing this, the Environment Agency has created a flood storage area which will store water from the River Rea during times of heavy rainfall and then slowly release it back into the river when river water levels go down. The Environment Agency have also built a new flood wall and a higher river bank at the rear of 15 homes which back onto the river.

Mike Adams from the Environment Agency said:

We're pleased to deliver these flood protection measures for the people of Selly Park South. This community has experienced the terrible effects of flooding and the measures we've built here reduces future risk of flooding. We would like to thank local people for their patience and support throughout the building of this scheme.

Councillor Lisa Trickett, Cabinet Member for the Environment from Birmingham City Council said:

We've seen the devastating impact that flooding can have on communities, so I am delighted that these new measures are now in place. These will make a real difference by reducing the risk of flooding to hundreds of homes and businesses in Selly Park South.

Along with flood defences, knowing your flood risk is also important when protecting your family and property from flooding. People can [check their risk](#) and [register to receive free flood warnings](#) online or call Floodline on 0345 988 1188.

Corporate report: NDA and PHE Epidemiology Governance Group Annual

Report 2016 to 2017

Significant epidemiological and radiobiological research involving nuclear industry workers was previously sponsored by parts of the UK nuclear industry.

Nuclear Decommissioning Authority (NDA) now own and manage this work and its assets. Public Health England (PHE) are contracted by NDA to maintain and carry out research on these assets.

The NDA-PHE Epidemiology Governance Group provides Independent governance and oversight of this work.

News story: CC Haulage & Sons Ltd to pay £109,000 for dumping on Devon farms

A Devon haulage and site clearance company faces a bill of more than £100,000 for dumping thousands of tonnes of soil and stone on farmland. The case was brought by the Environment Agency.

CC Haulage & Sons Ltd is a family owned and run company based at Manor Farm, Colebrooke, Crediton. The two directors are Colin Clarke and his wife, Deborah Clarke.

Farmers are allowed to accept up to 1,000 tonnes of non-hazardous waste including soil and stone under a permission known as an 'exemption' that is commonly used on farms to construct hard-standings, bases for buildings and tracks and doesn't need an environmental permit.

In November 2016 the Environment Agency visited Beech Down Farm in Tedburn St Mary where waste was being tipped in a valley. Inquiries revealed that CC Haulage had deposited 7,820 tonnes of waste at the farm. Excessive quantities of waste, much of it from building and construction sites, had also been tipped at 3 other Devon farms at Longdown, Exeter, Yeoford and Crediton.

The offences came to light after the Environment Agency examined waste transfer notes that identified CC Haulage as the source of the excessive amounts of waste material. The company benefitted financially by paying the farmers less to accept the waste than it was charging its clients to take the material away.

The firm's defence said CC Haulage believed the farmers had the necessary

permits to accept the waste, but admitted the company should have checked.

Richard Cloke of the Environment Agency said:

Haulage businesses must ensure they comply with the limits and conditions of environmental permits and exemptions.

These are in place to stop the illegal deposit of waste, protect the environment and create a level playing field for the waste industry.

Appearing at Exeter Crown Court, CC Haulage & Sons Ltd was fined £14,000 and ordered to pay £5,000 costs. Judge Geoffrey Mercer also imposed a £90,000 Proceeds of Crime confiscation order at the sentencing hearing on 15 January 2018. The company must pay back this figure from the profits it made from its criminal activities.

Judge Mercer said: "It is not entirely clear to me how the company were unclear about the limits."
