

Notice: HU19 2BZ, Mr and Mrs Kirkwood: environmental permit application advertisement

The Environment Agency consults the public on certain applications for waste operations, mining waste operations, installations, water discharge and groundwater activities. The arrangements are explained in its [Public Participation Statement](#)

These notices explain:

- what the application is about
- how you can view the application documents
- when you need to comment by

The Environment Agency will decide:

- whether to grant or refuse the application
- what conditions to include in the permit (if granted)

Press release: Farmer fined for illegal waste site

A County Durham man has been convicted of operating an illegal waste site in a prosecution brought by the Environment Agency.

Stephen Anthony Suddes, 53, appeared at Newton Aycliffe Magistrate's Court on Wednesday 13 December 2017 for operating a waste facility without a permit at his Thornley Pit House farm in Bishop Auckland.

Suddes, who has two previous convictions for waste offences, admitted the charges. He was handed a fine of £1,640 and ordered to pay costs of £1,500 and a £165 victim surcharge.

Under the same prosecution, Kevin Gray, 53, of Wear Street, Tow Law, on 6 September pleaded guilty for depositing controlled waste on a site without an environmental permit. He was fined £400 and ordered to pay £1,000 costs.

Acting on behalf of the Environment Agency, solicitor Laura Taylor told the court that Suddes deliberately and flagrantly disregarded the law over several months.

Environment Agency officers visited Suddes farm several times between 24 May

2016 and 31 October 2016. Each time they observed illegal activity including large piles of waste containing metals, wood, plastics, rubble and soils, and clear signs that waste had been burnt. On two occasions they recorded a white van owned by Kevin Gray Building Services tipping construction and demolition waste on the farm.

David O'Toole of the Environment Agency said:

Suddes has repeatedly put the environment at risk by deliberately ignoring the law for financial gain. Illegal waste activity such as this has a detrimental impact on the community and environment, as well as undermining legitimate businesses. We'll continue to work hard to ensure enforcement action is taken against those who flout the law.

Anyone who suspects that waste is being disposed of on an illegal waste fire is urged to report the matter to our incident hotline on 0800 807060.

Press release: North East youngster's winning design for flood wardens

A Sunderland youngster flooded with creativity has designed a winning logo for the region's Flood Wardens.

The Environment Agency hosted a special assembly at Hetton Lyons Primary School to present year 5 pupil Sally Lockey with a flood warden jacket.

Her design beat more than 300 submitted across the north east and will now be printed on all of the new blue flood warden jackets in the region.

And the new logo will also be printed on pavements outside north east schools with Rainworks spray – an invisible spray which will only show the logo when it rains.

It means pupils at the school will be reminded of the importance of being floodaware at key times.

Coun. James Blackburn, Hetton Town Mayor David Wallace, and flood wardens from Durham were at the special assembly to congratulate the youngster.

Winner Sally Lockey with her logo design

Important job for youngsters

Taryn Al-Mashgari, Flood Community Engagement Officer who covers the Tyne and Wear area, said:

The winning logo will be worn by flood wardens right across the north east so it was an important job for these youngsters.

We got more than 300 entries, which is fantastic, and it was tough for the judging panel. But the winning logo incorporated all of the aspects of a flood warden and that's why we chose it.

We're working closely with schools to make sure young people understand what it means to be flood resilient and how they can be prepared, so that communities are prepared for future generations.

We've talked to them about the importance of flood wardens and what they do and it's been fun for the children to come up with this new design.

L-R: Taryn Al-Mashgari, Environment Agency; Flood warden Margaret Horseman; Mayor David Wallace with the flood emergency 'grab bag' given to the school; Flood warden Sue Williams, and Coun. James Blackburn, with logo design winner Sally Lockey wearing the flood warden jacket and with the new Rainworks stencil.

School presentations

Environment Agency Flood Engagement Officers gave presentations at schools across the north east during the competition to raise awareness of flooding with children and start them thinking about how to prepare for flooding.

Sarah Staward, Year 5 teacher at the school, added:

The children really enjoyed learning about flooding and the role and qualities of the Environment Agency flood wardens. The competition also supports our work as an eco-school.

Flood wardens are community volunteers who support their communities during flooding incidents – including activating a community's flood action plan, ensuring the most vulnerable in their community are safe and working closely with the Environment Agency.

Flood warden Sue Williams, who congratulated Sally at the assembly, said:

These new flood warden jackets are excellent as the blue colour identifies us as flood wardens and distinguishes us from organisations at the scene. The winning symbol is fantastic and captures everything about our role.
