

Notice: CV21 2RY, Cemex UK Cement Limited: environmental permit draft decision advertisement

The Environment Agency consults the public on certain applications for waste operations, mining waste operations, installations, water discharge and groundwater activities. In some cases they also consult on draft decisions for environmental permits. The arrangements are explained in its [Public Participation Statement](#)

These notices explain:

- the Environment Agency's proposed decision and the reasons and considerations on which they've based this
 - additional relevant information available since the application was advertised
 - any information or guidance provided by the Secretary of State relevant to the application
-

Notice: PE9 3SX, Castle Cement Limited: environmental permit draft decision advertisement

The Environment Agency consults the public on certain applications for waste operations, mining waste operations, installations, water discharge and groundwater activities. BGS Cardiff office change of address and telephone number

We are very pleased to announce that week beginning 6th March 2017, BGS Cardiff Office is relocating to Cardiff University.

BGS Cardiff Office and switchboard will reopen on the Cardiff University campus on Thursday 9th March.

Corporate report: Results-Based Agri-environment Payment Scheme (RBAPS) pilot study in England

Updated: Issue 2 of newsletter added.

The EU Directorate General awarded a 3-year grant to Natural England and the Yorkshire Dales National Park Authority (YDNPA) in 2016 to jointly run a

pilot study, known as the Results-Based Agri-environment Payment Scheme (RBAPS).

There are 2 other pilot studies funded by the EU in:

- [Ireland and Spain](#)
- [Romania](#)

Agreement holders get paid by results, not by following set methods. Management actions taken are not assessed. Agreement holders can choose the most suitable method to achieve the agreed end result.

The results of all 3 pilot studies will shape land management scheme design in England and the EU for the future.

RBAPS is being applied to 4 land management options – 2 options each in 2 locations in England. The tables show how RBAPS management options compare to current Environmental Stewardship (ES) and Countryside Stewardship (CS) options.

Study areas

The 2 pilot study areas test grassland and arable management options.

Grassland options – Wensleydale, North Yorkshire

RBAPS option	Species rich hay meadow
ES comparable options	HK6 – maintenance of species rich, semi-natural grassland, HK7 – restoration of species rich, semi-natural grassland
CS comparable options	GS6 – management of species rich grassland, GS7 – restoration towards species rich grassland
RBAPS option	Habitat for breeding waders
ES comparable options	HL7 – maintenance of rough grazing birds, HL8 – restoration of rough grazing for birds
CS comparable option	UP2 – management of rough grazing for birds

Read the grassland factsheet (attached on this page) for progress in Wensleydale.

Arable options – Norfolk and Suffolk

RBAPS option	Winter bird food
ES comparable options	EF2/HF2 – wild bird seed mixture, HF12 – enhanced wild bird seed mixture
CS comparable option	AB9 – winter bird food
RBAPS option	Pollen and nectar
ES comparable option	EF4/HF4 – nectar flower mix
CS comparable option	AB1 – nectar flower mix

Read the arable factsheet (attached on this page) for progress in Norfolk and

Suffolk.

Study aims

Natural England and the YDNPA will:

- design and implement the pilot scheme
- develop ways of measuring results for the 4 management options
- monitor control sites
- analyse results

Measuring success

Results will test how:

- RBAPS affects environmental performance
- accurately farmers carry out self-assessment as part of the new approach
- cost effective the approach is
- well farmers and stakeholders respond to the approach

The pilot study will publish 2 newsletters each year providing updates for the lifetime of the scheme. Read issue 1 attached on this page.

Read the National Audit Office summary report on [government's use of payment by results schemes](#). The report concludes that sharing good practice and gathering strong evidence is vital for the success of these schemes.
