

# New major crackdown on one of the biggest online piracy groups in the world: international coordination led by Eurojust

The Hague, 26 August 2020

 An alleged criminal network of copyright infringing hackers, mainly responsible for pirating movies and hosting illegal digital contents worldwide, was dismantled yesterday in a coordinated action between US authorities and their counterparts in 18 countries around the world, with Eurojust and Europol support. Over 60 servers were taken down in North America, Europe and Asia and several of the main suspects were arrested. The alleged illegal activity was causing tens of millions of USD in losses on an annual basis mainly to the US movie, television, and supporting industries.

Based on allegations contained in court documents, the organised crime group (OCG) called the 'Sparks Group' dismantled yesterday was one of the biggest ones in the world responsible for online piracy. By deceiving the legal distributors with fraudulent reasoning, they obtained legal copies of DVD and Blu-Ray disks of blockbuster movies, television shows, and other content in advance of their release dates, compromised their copyright protections and then uploaded and distributed the illegal copies via servers operated by the OCG. The content was made available prior to its retail release date and further distributed via streaming websites, peer-to-peer networks, torrent networks, and other servers accessible to public, causing thus major losses to the film production industry.

The servers were located in several countries around the world, including the Republic of Korea, the Czech Republic, Denmark, France, Germany, Latvia, Romania, Poland, Portugal, Spain, Sweden, Switzerland, the Netherlands, Norway and the United Kingdom. The majority were taken down in yesterday's action and in the days preceding it, with the help of national authorities from these countries, coordinated through Eurojust. Other measures were also taken in Italy, Romania and Canada. One of the members of the alleged criminal network was arrested over the weekend in Cyprus and another suspect was arrested yesterday in the US.

Photos © Police authorities from Germany, Korea, Latvia, Portugal, Spain, Sweden and Switzerland

This successful operation was possible thanks to the extensive international cooperation facilitated by Eurojust between judicial and law enforcement

authorities from the 19 countries involved.

The case was referred to Eurojust by the US Liaison Prosecutor earlier this year, given its world-wide magnitude and the need to coordinate closely with all countries involved and Europol.

*'This case is an excellent example of what can be achieved if we work together across borders and continents. Thanks to the long-standing partnership between the US and the European authorities, we managed to deal a significant blow to online piracy. My sincere congratulations go out to all countries involved in yesterday's joint action day'* said Ladislav Hamran, President of Eurojust.

*'In an investigation that spanned several time zones, the Department of Justice and law enforcement agencies in the United States worked very closely with national authorities from all other countries involved, exchanging necessary information in real time in a highly dynamic landscape,'* said Vaughn Ary, Director of the U.S. Department of Justice's Office of International Affairs. *'The Department extends our gratitude to Eurojust, Europol, and our international partners, who played a critical role in the investigation and takedown of these alleged cyber criminals.'*

Eurojust hosted yesterday's coordination centre, ensuring real-time coordination in the joint action of the national authorities in 18 countries. An operational meeting at Europol and a coordination meeting at Eurojust were organised prior to the joint action day, facilitating the exchange of information between law enforcement and judicial authorities and setting a joint strategy between all the parties involved.

Eurojust also helped transmit and facilitate the execution of over 30 Mutual Legal Assistance requests and Letters of Request necessary for taking down the servers and executing searches, and provided critical support in order to plan and carry out the coordinated operation yesterday.

Europol provided analytical support during the investigation and supported the information exchange between the involved police authorities via the SIENA secure communication system.

Earlier this year, Eurojust helped dismantle another [criminal network operating with paid-TV fraud](#) and received a [letter of recognition](#) by the Motion Pictures Association of America (MPAA) in the US.

## Belarus: Joint Statement by HR/VP, Josep Borrell and the Ministe

We, as friends of the Belarusian people and supporters of the sovereignty and independence of the Republic of Belarus, stand by the people's wish for democratic change.

We have clearly and repeatedly expressed our positions regarding the conduct of the 9 August presidential elections in Belarus and their aftermath. The presidential elections were neither free nor fair.

The massive demonstrations in Minsk and across the country on Sunday 23 August should make it clear to the authorities that it is now urgent to launch an open and constructive national dialogue to find a way forward in Belarus.

Belarus has international obligations, which we expect the authorities to respect. As an Organization for Security and Co-operation in Europe (OSCE) participating state, Belarus has committed to holding genuinely democratic elections and to upholding human rights and fundamental freedoms. Only a peaceful and democratic process can de-escalate the situation and provide sustainable solutions.

Therefore, we support the Albanian OSCE chairmanship-in-office proposal to support dialogue in Belarus by a joint visit with the incoming OSCE chairperson-in-office, Sweden. We call on the Belarusian authorities to accept this proposal without delay. We call on all other OSCE participating states to support this proposal as well.

We will continue to follow the situation closely and stand ready to contribute to efforts to peacefully resolve the crisis.

Canada and the European Union will continue to stand with the people of Belarus and will continue to work with our international partners to ensure that their voices are heard and their rights upheld.

---

## Supply of Personal Protective Equipment

The EEAS is launching a call for tenders using an open procedure, for the supply of personal protective equipment.

If you are interested to participate in this call for tenders, please find the contract notice and all relevant documents on TED following the link below.

## Informal meeting of EU Defence Ministers: Remarks by the High Re

*Check against delivery!*

Good morning,

I would like to thank the Defence Minister of Germany [Annegret Kramp-Karrenbauer] for hosting this meeting, which is the first physical meeting since March. Six months have passed without having the opportunity of sitting and discussing together.

Today, we are going to discuss very important topics, because the situation is very worrisome in Libya, in Mali, tensions in the Eastern Mediterranean, the situation in Belarus. We have a lot of issues to talk about.

We will also talk about structural matters like the Strategic Compass. We have to push for this Strategic Compass to be developed and many other issues

of European defence.

I am very happy that we are going to have with us the NATO Secretary General [Jens Stoltenberg] and also the United Nations Under-Secretary-General [for Peace Operations] Jean-Pierre Lacroix.

I think it is going to be a profitable meeting.

Thank you, Minister [Kramp-Karrenbauer], for organising it.
