

Food supply and home deliveries

There is plenty of food but still some problems getting enough into shops. There is a shortage of home delivery capacity for the elderly and ill needing that.

I have put the issue to Ministers again and asked that they broker further talks between the catering and supermarket companies over diverting food from catering packs to retail packs, and possible use of catering delivery assets and drivers to shift more for supermarkets. The government should suspend competition rules to allow collaboration.

Now most non food shops are closing the government could also ask the logistics companies shifting non foods to shops to see what they could do to boost food deliveries, and to see if some of the home delivery capacity of non foods could be used for foods.
