

FRA joins European Migration Network National Contact Points meeting

The aim of these monthly meetings is to update contact points as well as the European Asylum Support Office, the European Commission and its Joint Research Centre, the European Parliament and FRA about each other's activities.

The network's current priority is a series of EMN Informs on the impact of COVID-19 on migration.

The Commission expressed interest in including FRA's findings of the [bulletin on the fundamental rights implications of COVID-19](#) and FRA's [quarterly migration bulletin](#) in relation to COVID-19 in the network's situation reports.
