

Getting things done – Ancrum Drive lock-ups #dundeewestend

Last year, at my request, Hillcrest Enterprises as factors undertook a clean-up, graffiti removal, weeds removal and guttering works at lock-ups in Ancrum Drive.

I have also asked Hillcrest if it will consider improving the road surface around the lock-ups as it is very potholed and muddy.

Hillcrest's Housing Manager (Operations) has positively responded as follows :

"I'm aware the surface at the lock ups is not ideal and this is clearly backed up by the photo you have supplied. ... The cost of tarmac would be prohibitive but we can of course look at some practical repairs and maintenance.

I will ask my Maintenance colleagues to gather quotations with a view to having some improvements carried out after the worst of the frosty weather is behind us, perhaps around March.

I will contact you again to outline the work we propose to undertake and give a clearer timeframe in due course."
