

Getting things done – Balgay Park #dundeewestend

Residents contacted us about the damage to the entrance pillar to Balgay Park and Hill at the Glamis Road side of the park. This was caused by a vehicle some weeks ago.

We asked our local environment manager for an update on progress with repairs and have received this helpful response :

“I can confirm that we are aware of damage that has occurred at the entrance of Balgay Cemetery Glamis Road, and this damage has been assessed by the Area Officer.

The Area Officer is currently making arrangements with department colleagues to remove the damage in the short term with a view to arranging a full repair of the pillar.”
