

Getting things done – Lochee Road #dundeewestend

Residents have drawn to my attention the poor condition of the pavement on Lochee Road from Mitchell Street to Black Street.

I highlighted this with the council's Roads Maintenance Partnership and have received the following helpful response :

"This section of Lochee Road footway between Mitchell Street to Black Street has been identified for including in the 2018/2019 footway slurry seal programme subject to budget availability. The works have yet to be programmed."
