

Getting things done – Logie Avenue #dundeewestend

I recently received complaints from residents that a drain is flooding near to the lock-ups at the east end of Logie Avenue.

I took up this concern with the council's Roads Maintenance Partnership and have received the following feedback :

"The gully was cleaned and pipework jetted as far as possible on Thursday of last week.

The pipe is partly blocked due to roots which is causing the problem, which we plan to tackle this week with the root cutter."
