

Getting things done – Riverside Drive #dundeewestend

Back in October 2021, Fraser had a site visit with a member of West End Community Council and a City Council officer about several issues on Riverside Drive.

We agreed that some cycle parking provision just east of the car park at the

Bridgeview Station Restaurant would be a good idea, particularly as there was plenty space for this.

Fraser raised this with the City Development Department at the council and received a positive response.

It has taken a little time to deliver as it was tied into another project delivery schedule but we are pleased to say it has now been installed.
