

Getting things done – West End roads update #dundeewestend

Following my reporting residents' complaints, I am pleased to advise that a series of potholes on Logie Avenue at its east end will be repaired this week.

I have also received from the council's Roads Maintenance Partnership the following feedback on complaints I raised about road surface deterioration in Marchfield Terrace and Hillcrest Road :

"The Road Maintenance Partnership inspector has raised an order for two thermal patches to be done in Hillcrest Road with a timescale for repair of approximately ninety days. A pothole repair has also been raised for Marchfield Terrace with a timescale for completion of approximately thirty days."
