Government at a Glance

Government at a Glance 2017 delivers public service performance data and comparisons, providing a vision of the state of the public sector and the trends that are shaping it across the OECD and beyond.

With over 200 indicators, it offers data and insights for governments that seek to better understand their own practices and who wish to benchmark their achievements. Policy makers, journalists, academics and the general public will benefit from its detailed comparisons and clear presentation of the data used to understand the bigger picture.
