

Green Party responds to IPPR report on climate change

12 February 2019

The Green Party of England and Wales have today responded to the report – *This is a Crisis: Facing up to the Age of Environmental Breakdown* – released by the Institute for Public Policy Research. [1]

Co-leader Jonathan Bartley said in response:

“This report is clear – the impact of human activity on our climate is utterly destructive, and it will have serious political and economic implications. There still is an opportunity to build a fairer and more sustainable future, but that window is closing fast.

“The UN warned us we have just 12 years to take positive action to avoid climate destruction but we must start right now. The Government desperately need to find the political will to take the bold steps so urgently needed.”
